Water Comes Up, Down Maine Way

Dories moved up from the waterfront right into the main street of York, Me., when a cloudburst turned the seaside resort's business section into a sea of its own. Here a rowboat is shown navigating a street full of flood-marooned automobiles.

Uneasy Peace As Strike Talks Held At Ottawa

OTTAWA (CP)—Labor Minister Mitchell today gave the Commons a four-word report on negotiations for settlement of the steel strike. "Conversations are going on," he said in reply to a question from John Bracken, Progressive Conservative leader.

New discussions between representatives of the United Steelworkers of America (C.I.O.) and the Labor Department started earlier this week and it was expected they would continue today.

While only meagre reports have so far come from the conferences, it has been announced there was an exchange of proposals for settlement of the 46-day strike which affects the Steel Company of Canada, Hamilton; Algoma Steel Corporation, Sault Ste. Marie, Ont., and Dominion Steel and Coal Corporation, Sydney, N.S.

Helen Anderson, Hamilton alderman and a Labor-Progressive, told the veterans she thought Ontario Provincial and Royal Canadian Mounted Police here on strike duty did not "dare to move at present."

Harold Leeton, president of the veterans' group made up of men on strike at steel, rubber and electrical plants here, read a telegram to C. H. Millard, national director of the United Steelworkers of America (C.I.O.), urging him to stand firm in the present settlement negotiations at Ottawa.

Walter Kubicki, vice-president of the veterans' group, told the men to abandon any idea of bringing knives or other weapons to the picket line in the event of a clash. "I think we can handle this without them," he said.

The 240 veterans joined the 150 strike pickets on duty at the gate for a time.

Child Thrills At Miracle Of Sight

"She's pretty," says Tony Upton, 5, as he sees his mother, Mrs. Ella Mae Upton, for the first time at a Cincinnati, Ohio, hospital. His mother weeps happily as third operation to remove congenital cataracts from her son's eyes proves successful. He was blind from birth till the operations.

3rd World War Already In Sight Paris Believes

The following story is not a prediction of war, but merely a picture and sampling of opinion and atmosphere surrounding the Paris Peace Conference. It was written by the veteran correspondent who is chief of the Associated Press Paris Bureau.

By RELMAN MORIN.

PARIS (AP)—The Peace Conference appears now to be headed for failure and people in Paris, both foreigners and French, both those who know and those who only feel, are more profoundly depressed today than at any time since the last gun was fired in Europe.

They feel a third world war already is in sight. They feel it may not come this year or next year, but there is little doubt any longer among people in Paris that it will come. That view is common to people in all quarters.

MINISTER DISCOURAGED

A few days ago I spoke with the foreign minister of one country. He now has gone home. He described himself as "a discouraged optimist, worn out and hopeless." Not long afterward I overheard a conversation between a French policeman and a waiter in a cafe a short distance from Luxembourg Palace. "Keep the moths out of your uniform, old boy. You are going to need it."

NO BULLETS THEN

At Versailles there were days when Georges Clemenceau, furious with the British attitude toward Germany, refused even to speak to David Lloyd George, but there never was a day during the conference itself when French guns opened fire on Britain. Nor was there ever a day when one "Ally" described another as "a menace to peace."

If Versailles bred the Second World War in 20 years, how long will it take the Conference of Paris to start a third?

Committees Working On Plan To Augment B.C. Nursing Help

Committees established in Vancouver Thursday to explore means of increasing British Columbia's supply of nursing help are getting right down to work and will report on their findings in about two weeks, Charles Morrison, secretary of Royal Jubilee Hospital, said today.

Mr. Morrison was a representative of the B.C. Hospitals Association at the Vancouver conference. Practically all organizations employing nurses in the province were represented, including public health authorities, the Department of Education, the Department of Veterans' Affairs, Vancouver Community Chest and the Registered Nurses' Association.

Chief business, Mr. Morrison said, was to consider and act on the recommendation that nursing help be increased in British Columbia by employment of nurses' aids.

One committee was set up to explore the extent to which nurses' aids could carry out duties of nurses under the supervision of fully qualified nurses; to list minimum requirements to fit nurses' aids for carrying out these duties; and to investigate the possibility of a training program, likely under the Canadian Vocational Training scheme, to provide a large number of nurses' aids in a short time.

Another committee was established to explore legislation to control licensed graduates.

Plan Landing Strip

OTTAWA (CP)—Trade Minister MacKinnon promised consideration today of a suggestion that landing strips be laid down to accommodate tourists who wish to fly into Canada.

New Step Linked With Ukraine's Stand On Greece

LAKE SUCCESS, N.Y. (CP)—Russia called on the United Nations' Security Council today to determine the number and positions of Allied troops and the whereabouts of Allied air and sea bases in countries other than occupied former enemy territories.

Britain immediately linked the new Russian move with the complaint the Soviet Ukraine has filed against Greece charging the Greeks were disturbing the peace in Albanian border incidents and criticizing the presence of British troops in Greece during the campaigning for next Sunday's plebiscite there.

But United Nations' circles speculated that it opened a whole new phase of Russian policy in the Security Council, where last night Portugal, Eire and Trans-Jordan were excluded from the U.N. by Russian vetoes while Soviet-supported Albania and Outer Mongolia failed to rally the necessary votes.

Iceland and Afghanistan were approved for membership without opposition. Their bids now go to the General Assembly for approval.

Russian delegate Andrei Gromyko hoped to lay the new proposal before the council at its meeting this afternoon. He demanded Thursday night that

U.S. Intelligence Officers Say Soviet-German Spies Operating

FRANKFURT (AP)—United States intelligence officers said today a Soviet-sponsored German clandestine movement was believed operating on a large scale in the three western zones of Germany.

The officers made this report in connection with the espionage arrests at Stuttgart of 15 Germans with Soviet sympathies. An announcement said the ringleader had confessed to furnishing the Russians information on American troop movements.

The officers said "The Free Germany group was, according to best available information," operating in the American and British zones and recently had become active in the French zone.

The announcement added that at least one of the defendants

Rumor Hungary Invited To Join Union Of Soviets

BUDAPEST (AP)—A rumor, which lacked any authoritative confirmation, that negotiations were in progress for Hungary to become a member state of the Soviet Union spread through Parliament this week.

A high Hungarian official with admitted anti-Communist leanings said he had received "indirect word through a northern country" that a Hungarian representative was negotiating with Russians in Paris to make Hungary a member state of the U.S.S.R.

He said his information named the Hungarian representative as Erno Gero, Minister of Commerce, who is attending the Paris Peace Conference.

Those who would know if such a move were under way were not available to the western press. Those who do receive the western press generally expressed consternation. But there was no confirmation in Budapest.

However, one highly-placed Hungarian said he had heard the same thing three days ago from a Hungarian manufacturer. The manufacturer's story was that he had been told by a leading Hungarian Communist:

"You had better settle your business and clear out before the end of the Paris Peace Conference, because if there is failure there, there probably will be civil war and the Communists are planning to ask that Hungary become a member state in the Soviet Union."

New Pain Relief

NEW YORK (CP)—The New York Times said today in a Moscow dispatch that vitamin B-1 has been used successfully in "painless" childbirth tests.

Formerly Had Worked For The American Military Government

The public relations division of the United States forces of the European theatre confirmed a disclosure from Stuttgart Thursday night of the arrest of the alleged spies. The division said 14 Germans were in prison awaiting trial on espionage charges.

The defendants were said to be leaders of an organization known as "Free Germany."

The announcement gave the name of only one defendant—Walter Kazmarek of Stuttgart—and quoted him as saying:

"It is clear we support the Soviet policy to the limit. A few of us in a small circle are more to them than a few divisions. When the east attacks, ministers will disappear in a hurry."

To Ask Approval Of Councils On Bids For Transit Sept. 16

Final drafting of the specifications for the unified transportation system in Greater Victoria is nearing completion, Ald. H. M. Diggon, chairman of the Greater Victoria Transportation Committee, announced following a meeting Thursday.

He anticipated that by the week of Sept. 16 the councils of the four municipalities would be asked to authorize the calling of bids on the transit system.

Following the open meeting Thursday, attended by a labor delegation, the committee went into a closed session to consider the amendments to the draft specifications proposed by the four councils of the Greater Victoria municipalities.

With one or two exceptions, it was found easy to reconcile all proposed amendments, Ald. Diggon said. The whole draft was then referred back to the chairman and transportation consultant, E. S. Farr, to investigate one suggestion made, which it was felt by some of the committee members might nullify the entire purpose of the unified transportation system.

Ald. Diggon was authorized to clarify this suggestion and report back to the committee at a meeting to be held during the week of Sept. 9. He gave assurance that he would be able to satisfy the committee on the matter.

(See story on Page 7)

Organists Choose Head

HAMILTON, Ont. (CP)—F. G. Silvester of Toronto was elected president, headquarters office, Toronto, of the Canadian College of Organists at the conclusion of a two-day convention here Thursday.

LATEST

Hamilton Garbage Strike Threatened

HAMILTON, Ont. (CP)—The threat of paralysis of Hamilton's garbage removal and sewage disposal facilities should outside police attempt to open the picket line at the Steel Company of Canada plant came today from William Fraser, secretary of the Hamilton Civic Employees' Union (C.E.U.), in an address to a crowd at the Steel gates. "You're the fellow who pays our wages and we're behind you 100 per cent," he said.

Collapsed On Street

William West, 60, 470 Chester Avenue, collapsed at the corner of Richardson and Cook Streets shortly before 1 this afternoon and was pronounced dead on arrival at Royal Jubilee Hospital, city police report.

Hungarian Denial

PARIS (AP)—Janos Gyongyossy, Hungarian Foreign Minister, tonight described as "absurd" a Budapest report that a Hungarian delegate was negotiating with the Russians in Paris to make Hungary a member state of the U.S.S.R.

Oppose Outlay

OTTAWA (CP)—Douglas Ross, P.C., Toronto-St. Paul's, moved in the Commons this afternoon that a supplementary estimate of \$2,000,000 to finance CBC expansion be reduced to \$1. The motion was seconded by Rev. E. G. Hansell, S.C., Macleod, Alta., who joined Mr. Ross in criticizing plans for CBC expansion.

Wants B.C. Road

WASHINGTON (AP)—Senator Magnuson, Dem., Wash., said today he is requesting the State Department to ask Canada by direct note to approve construction of a road to connect the northwest with the Alaska Highway. The road would run from the vicinity of Prince George, B.C., to the Alaska Highway.

May Cancel Test

WASHINGTON (AP)—Cancellation of the third atom bomb test, a deep underwater blast planned for next spring, is a distinct possibility, it was learned here.

Three main obstacles to the last test have arisen:

1. Scientists borrowed from their laboratories want to resume their research work on atomic fission.
2. The Presidential order allocating \$650,000,000 from the navy budget means a tightening of the purse strings, and
3. Technical personnel, eligible for discharge, who volunteered to stay for the first and second tests will be long gone by next spring.

Say Vancouver, Not San Francisco To Be Pacific Plane Terminus

SYDNEY, Australia (CP)—The Sydney Sun today said Vancouver, rather than San Francisco, would be the eastern terminus of the British Commonwealth Airlines' trans-Pacific service scheduled to be opened Sept. 15 by an interim operator, the Australian National Airways.

This was a result of the failure of long negotiations to produce a reciprocal landing rights agreement between Australia and the United States, the Sun's Melbourne dispatch said.

Sydney would be the Australian terminus, the Sun said, adding that fortnightly service would be run with Skymasters which would call at Honolulu and San Francisco for refueling, but unable to pick up or set down passengers or mail at those points. Passengers destined for the United States probably would be carried to Vancouver and then returned by another service, the paper added.

The Sun said a government announcement was expected within a few days.

AGREEMENT COMPLETED

OTTAWA (CP)—Canada and Australia have concluded an agreement for the establishment of air services between the two countries, the External Affairs Department announced today. No indication was given of when the service might start.

The agreement, following the form of one recently completed between Canada and Great Britain, makes provision for each government to designate an airline to operate a return service, originating in its own country.

While no mention was made in the announcement of the Canadian line, it is the stated policy of the Canadian government to use the Government-owned Trans-Canada Airline for international service.

The Australian route is specified as Sydney to Vancouver via Fiji, Canton Island, Honolulu, San Francisco or other intermediate stopping places which might be mutually agreed on. The route to be operated by Canadian planes merely specified the terminals, Vancouver and Sydney, leaving the intermediate stopping places to be mutually agreed on later.

NEED OFFICE SPACE

VANCOUVER (CP)—Aviation circles here welcomed today reports that Vancouver has been chosen the eastern terminus of an Australia-North America plane service scheduled to open Sept. 15.

Airport officials said runways here are capable of handling the big machines to be operated on the run and the airport's chief difficulty now is shortage of administration building space for customs and immigration. Facilities often are overcrowded with present services averaging 600 passengers daily.

Navy Not Vacating Recruiting Office

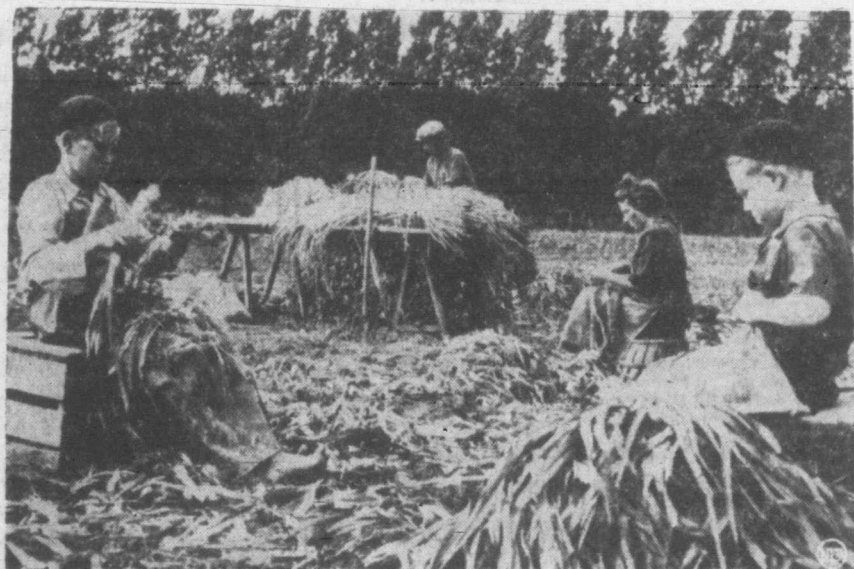

Harried by persons seeking office space to rent, Lt.-Cmdr. W. M. Gage, commanding officer at H.M.C.S. Malahat, reserve division scheduled to be decommissioned Saturday, today stressed that the 1238 Government Street site would be continued as a recruiting office.

He has already received five applications from persons wanting to rent the office. News of Malahat's decommissioning had apparently given the wrong impression, Lt.-Cmdr. Gage said, and even the R.C.A.F. had made overtures for possession of the office.

Death Sentence

JERUSALEM (CP)—Jacob Menahem Alcalay, the last of 23 members of the so-called Stern Gang charged with sabotaging the Haifa railway yards last June, was sentenced to death by a military court in Jerusalem today.

The sentence is subject to confirmation by Maj.-Gen. Sir Evelyn Barker, British commander in Palestine, who Thursday night announced he had commuted to life the death sentences previously pronounced against 18 other members of the same group. Four girls tried with the 18 two weeks ago were sentenced to life imprisonment.

FRENCH FARMERS REWARDED WITH BUMPER CROPS—Even the young in France join their parents in making the most of this season's near-record food crop for marketing to the hungry French nation. Almost as if by Providence, the urgent need for food in war-shattered Europe may be somewhat relieved by bumper crops in the fertile Rhone valley and rich hills of Brittany, where acres of ripe vegetables and golden grain greet the eager harvesters. Utilizing the time-proven methods which substitute for lack of modern equipment, French youngsters here prepare leeks for the market.

Says Youths 16 to 19
Now Worst Criminals

TORONTO (CP)—Lt.-Col. Wallace Bunton, head of the Salvation Army prison and police court services, which have 92 officers across Canada, said in an inter-

view Thursday night that "the worst criminals in Canada are between the ages of 16 and 19."

He said "veterans of service with the armed forces have not been responsible for even the share of crime that could be attributed to them on a percentage of population basis."

Harvesting Well Advanced
Say Reports From Prairie Areas

WINNIPEG (CP)—Harvesting in both Manitoba and Saskatchewan is in advance of last year, with Alberta about even with '45, the Canadian Pacific Railway's agricultural department reported today.

A Canadian National Railway's crop reported issued simultaneously said general rain over the prairies Aug. 24 to 25 had delayed the harvest for two or three days, but it now seemed to be in full swing again.

Partial text of the reports: Canadian Pacific: "Wheat, oats and barley in Manitoba are more than 80 per cent harvested and at many points in the province cutting is finished. In Saskatchewan 43 per cent of wheat and 54 per cent of coarse grains are cut and in Alberta 25 per cent of wheat and 32 per cent of oats and barley, with threshing and combining more widespread in the southeast, southwest and east-central sections virtually completed.

"Out-turns are encouraging says the report. Southern sec-

tions of Manitoba register as much as 40 bushels in some places and run from 15 bushels to the acre up. Southeast Saskatchewan estimates from 13 to 25 bushels an acre of No. 1 to No. 4. Northern and in the south as much as 30 bushels of Nos. 1 and 2. Wynyard subdivision showing favorably and more central areas reporting up to 20 bushels.

"Alberta needs a period of warm, dry weather to permit resumption of harvesting after recent rains."

Canadian National: "Southern Manitoba reports cutting nearly completed and this percentage decreases as you go west and north across the prairie till central Alberta is reached. Here cutting will not be general for another week. Results of the harvest are above average in southern Manitoba and the grades are good. Saskatchewan fields are just about the long-time average with the grades being a bit low. In Alberta the harvest is not far enough advanced to make any accurate estimate."

M.P.'s Sit Till Early Morning
In Attempt To Prorogue Soon

EXPLAINS SHORTAGES

OTTAWA (CP)—The second session of Canada's 20th Parliament was seemingly near its end today after 5½ months in the Legislative saddle of the nation.

The clock in the big green Commons chamber ground slightly beyond last midnight before its members called it a day and went home to catch some sleep before resuming their seats at 10 this forenoon.

They were ready to sit until midnight daily until they finish their work, but indications are that prorogation may fall tomorrow.

Members waded through the estimates of the Fisheries Department, completed those of the Finance Department and were knee-deep in those of the Trade and Commerce Department when they quit for the night. The Senate, meanwhile, cleaned off its slate in preparation for the formalities of the sessions' end.

FOR GREATER EXPORTS

Launching his department's estimates, Trade Minister MacKinnon said an expanded foreign trade service accounted for more than \$1,000,000 in the appropriations. He reported "good headway" made in reopening trade offices abroad.

Joseph Burton, C.C.F., Humboldt, Sask., objected to export of Canadian farm machinery and said Canadians should benefit first from internal production. Angus MacInnis, C.C.F., Vancouver East, agreed with him.

In accordance with the House's recent vote, Acting Finance Minister Abbott informed Stanley Knowles, C.C.F., Winnipeg North Centre, that the government would consider the question of continuing the producer subsidy on milk, "but I want to make it perfectly clear that that does not necessarily mean that the policy will be changed."

The subsidy of 55 cents on a hundredweight is due to be cut off Sept. 30.

Mr. Knowles maintained that the recent 69 to 41 vote in favor of reconstruction of that policy was "one of the most significant in this House in years."

Acting Finance Minister Abbott replied: "Not yet," when Gordon Graydon, P.C., Peel, Ont., asked him if he had any statement to make on the forthcoming sale of government bonds.

H.B.C. Net Profit
For 1945, \$774,000

WINNIPEG (CP)—After making provision for taxation in the United Kingdom amounting to \$6,530,000, the net profit from trading during the year ended Jan. 31, 1946, was \$774,000, a statement issued here on behalf of the governor and committee of the Hudson's Bay Company said today.

The balance available in respect of the year ended Jan. 31 will enable them to recommend a dividend of 7 per cent and a distribution from the receipts of land sales of 5 per cent payable on Oct. 4 next to the proprietors registered as shareholders on Sept. 12, it said.

The annual meeting of proprietors will be held Sept. 7 in London.

It also was announced that Sir Alexander R. Murray has relinquished the office of deputy governor, but remains a member of the board. William Johnston Kewick has been elected deputy governor and Sir John Anderson and Philip A. Carter, general manager for Canada, have been elected members of the board.

Get 72-Hour Week

MONTREAL (CP)—Montreal firemen will begin a six-day, 72-hour work week Sept. 1.

The shortened work week will cost Montreal approximately \$282,000, to pay for services of an additional 189 firemen.

Resources Minister
To See Yellowknife

OTTAWA (CP)—A Resources Department official said today Resources Minister Glen would leave Edmonton Sept. 4 for a two-day plane trip to the Yellowknife mining area in the Northwest Territories.

The minister, who left here Wednesday night by train, will spend two days in Winnipeg before continuing to Edmonton, where he is scheduled to speak at a Chamber of Commerce luncheon next Tuesday.

The official said Mr. Glen, whose department is responsible for the administration of the Northwest Territories, is particularly interested in the big power development program being carried out in the area, the moving of the town of Yellowknife to a new site and construction of the new Yellowknife airport.

C. W. Jackson, Acting Deputy Resources Minister, R. A. Gibson, Director of Lands, Parks and Forests and J. M. Wardle, Director of Surveys and Engineering, also will make the trip to Yellowknife.

I.L.P. Majority Cut
Sharply In Glasgow

GLASGOW (CP)—The far-left retained its parliamentary seat for the Bridgeton division of Glasgow in a by-election caused by the death of James Maxton, leader of the party and one of its three members in the House of Commons.

I.L.P. candidate James Carmichael polled 6,351 votes to 5,180 for John Wheatley, Labor nominee endorsed by Prime Minister Attlee. The Conservative candidate, Victor Warren, ran third.

Mr. Carmichael, who has described the Labor Party as "not revolutionary enough," was backed by Mr. Maxton's son and sister.

Votes for two other candidates—Guy Aldred, Independent Socialist known as the "Leader of forlorn hopes," and Miss Wendy Wood, Independent Scottish Nationalist—were not made known immediately.

Miss Wood campaigned in a tartan skirt and balmoral, and decorated the platform with produce from her farm to emphasize the benefits of farm life.

The majority for Independent Labor was sharply reduced. In the general election in July, 1945, Mr. Maxton polled more than 13,000 votes and his only opponent, Lieut. R. C. Broome-White, Conservative, 6,600.

Boy Loses Life
In Capilano River

WEST VANCOUVER (CP)—Police here said no inquest will be necessary in the death of Ross Steele, 15, recently of Toronto, while swimming Wednesday in the Capilano River. A coroner's inquiry revealed that the youth's death was caused by drowning, aggravated by a heart condition.

Police reported the boy and his parents, Mr. and Mrs. Ralph Steele, moved to Vancouver recently from Toronto, and have been living at the Capilano tent camps while seeking permanent accommodation.

Sales Cost 9.3%

OTTAWA (CP)—The cost of disposing of Canada's war surpluses during the fiscal year ended March 31 last was \$11,618,502 or 9.3 per cent of the gross proceeds from its sales during the year, the War Assets Corporation announced Thursday.

King's Hereditary
Champion Passes

LONDON (Reuters)—Francis Scaman Dymoke, 84, hereditary King's Champion, died Thursday night.

It was the duty of Mr. Dymoke's ancestors to ride into Westminster Hall on horseback during the coronation banquet, fling down a gauntlet and demand if anyone present wanted to challenge the newly-crowned King's right to the throne.

Nobility, it is said, ever accepted the challenge.

The last time the King's Champion flung down the gauntlet was at the coronation of William IV. At the three most recent coronations, those of Edward VII, George V and George VI, Mr. Dymoke carried the Standard of England in lieu of the old ceremony.

The office of King's Champion has been held by the Dymoke family since 1377 and a Dymoke has attended every coronation since that of Richard II in that year.

The title passes to his eldest son.

NAVAL CUSTOMS AND TRADITIONS No. 5
THE KING: British Naval Officers when afloat treasure the right to drink the King's health while seated. Some say that the privilege of Naval Officers to remain seated during the "Toast to the King" dates back to the reign of Charles II, who on returning to England in 1660 on board the Royal Charles, bumped his head when replying to a toast, and ever afterwards held Naval Officers excused from rising on these occasions.PLAYER'S MILD

MAXTON TRADITION HELD

YESTERDAY'S BY-ELECTION IN THE Bridgeton division of Glasgow produced no surprise; it returned an adherent of the Independent Labor Party to fill the seat in the House of Commons left vacant by the death of Mr. James Maxton, the party's leader. Five candidates bid for the honors, Mr. James Carmichael polling 6,351 votes to 5,180 garnered by Mr. John Wheatley, the Laborite who campaigned with Prime Minister Attlee's blessing. Conservative Victor Warren running third. Details of the support accorded the Independent Socialist and the feminine contender for the cause of Scottish nationalism are not available as this is written.

Mr. Maxton had sat in the House of Commons for this Glasgow division for nearly a quarter of a century. He made his first bid in the "khaki election" of 1918 and trailed a Coalition Liberal in a straight fight by 3,000 votes. After the return to party lines in 1922, however, he defeated a National Liberal by the imposing margin of 16,700. In a three-cornered contest in the following year, Mr. Maxton set up a plurality of 7,000, his opponents being a Conservative and a Liberal. Again in 1924—the "Zinoviev Letter" election—the I.L.P. leader's majority over the Conservative was 6,000, increasing to 11,000 in 1929, dropping to 5,000 in 1931—the "Financial Crisis" election—and soaring again in 1935 in a three-cornered battle over a Conservative and Socialist to a plurality of 8,000. Ten years later, the first contest after the collapse of Germany, Mr. Maxton again fought a Conservative, who had Mr. Churchill's blessing, and piled up a majority of 6,400.

How much strength at the polls yesterday's victor drew from the Maxton tradition is conjectural. Bridgeton's inclination has been far "left of centre" ever since the end of the First Great War. As a political force in Great Britain, however, the Independent Labor Party is practically spent. Mr. Carmichael's succession to the vacant seat does not change the distribution of voting strength in the House of Commons. Only three I.L.P. members are counted out of 640. Nor is Mr. Attlee likely to be disturbed over the fact that his government's standard-bearer could do no better than reduce his opponent's majority to its lowest point since 1918. But the national forum will miss the strident voice of "Jimmy" Maxton—a fearless debater and a very human person.

A NEW FRIEND

VICTORIANS ARE ENTITLED TO THINK that more than diplomatic graciousness prompted the new American consul, Mr. Leo J. Callanan, to liken his post here to a plum which must be shared with other members of the United States foreign service. We say this because we believe his predecessors have found their duties in this capital pleasing and the friendliness of the people highly gratifying. But this is no particular turn of compliment to Victoria itself. It is the result of the personalities who have held the office and who have fitted so well into the community and its activities.

It has been the happy experience of former American consuls that they have, in effect, become Victorians while they retained their formal positions as representatives of a friendly foreign nation. Their participation in affairs permitted by their specific offices has gone far beyond the perfunctory observance of ordinary courtesies and has been, in no small measure, a major contribution to the continuous good will between Victorians and their friends across the border.

We regret that Mr. Callanan is suffering the same inconveniences experienced by hundreds of other potential home-makers in finding accommodation. Once he is settled, however, we are happy to think that he will find enjoyment similar to that of which his predecessors partook while in residence here.

BIG BROTHER BLUFF

IN THE PAST TWO MONTHS THE YUGOSLAVIAN forces of Marshal Tito have been responsible for six major "incidents." On June 19 and again on June 30 Yugoslav patrols entered the Allied occupation zone of Venezia Giulia, in the Trieste area, on the latter occasion surrounding a British patrol with the explanation that they were acting on orders. On July 12 Yugoslavs crossed the boundary of the American sector of Venezia Giulia and twice fired without provocation upon investigating U.S. troops; on July 13 American soldiers discovered that Yugoslavs had again penetrated the area and had set up a machine-gun post near the scene of the previous day's trouble. On Aug. 9 and on Aug. 19 American transport planes were attacked by Yugoslavian aircraft. Thus a small country of small resources, which could not hope to match herself against the might of the United States or Great Britain, amazes a war-weary world by seeming to ask for more trouble. Why? The answer seems patently obvious. Marshal Tito and his brave little nation move in the Soviet orbit of eastern Europe. They, like other little rulers and other little

nations, depend upon Russia for diplomatic aid, if need be, military backing. The presumption Yugoslavia displays is by no means her own exclusive property. The Romanian representative at the Paris peace conferences arises to laud the U.S.S.R. for the "moderation" of the war reparations she asks—and to announce that Romania, beaten Axis satellite, will not pay the "excessive" reparations demanded by the western Allies. The Bulgarian representative at Paris takes the floor for a scathing assault on Greece and demands that Bulgaria, a Hitlerian ally, be given territory belonging to Greece, a Hitlerian victim. Nor is Yugoslavia alone in the apparent disregard of self-interest she exhibits. Small nation Poland repeatedly votes at Paris against giving small nations a greater say in the formation of the peace treaties—voting with large nation Russia.

Yugoslavia's unwarranted boldness seems much like that of the little boy so familiar in every Canadian neighborhood. He cannot fight a lick himself—but he seeks, nevertheless, to impose his will on stronger playmates by threatening to send his big brother after them if they oppose him. In so doing, he disregards the fact that big brother himself might not relish a scrap. The big brother in this case, of course, is Russia. And now that the United States and Great Britain have with official communications "laid down the law" to Yugoslavia in no uncertain terms, it would be wise indeed for big Marshal Tito to take little Marshal Tito aside and just as definitely explain the facts of life to him.

AN IMPORTANT COURSE

ANNOUNCEMENT OF THE DECISION to expand the physical education course at the University of British Columbia, with a view to the eventual award of a degree in that department, will further mark the maturing of the senior provincial educational institution and make provision for the instruction of personnel to take over important duties in posts where certification of that type is required.

The general nature of the first two years of the course gives ample assurance of a sound academic background for candidates. While they will later specialize in subjects related closely to the work they plan to do, they will not be devoid of the elements of a liberal education as they advance.

It has been the practice of those who wished to attain recognition as authorities on physical education—that formal recognition which comes from a college degree—to attend institutions outside British Columbia where courses were already established. The move now under way will eliminate the necessity to go beyond the province's borders to gain full qualification—a factor which will meet with particular approval from those who believe the University of British Columbia should prepare young men and women to meet the needs of British Columbia.

REVERTING TO TYPE

ONCE UPON A TIME THE WORLD WAS led to believe that Hjalmar Schacht, a former president of the Reichsbank, was not a disciple of the "blood and iron" philosophy, certainly not sold on the super-race theory, and could be classed as "a good German." But before the Second World War had progressed very far this international banking expert had taken his place among the Nazi hierarchy. He became one of the Fuehrer's most brutal economic soldiers; it was largely through his financial manoeuvres that Romania, Bulgaria and Hungary fell easy victims of Hitler's much-vaunted "new order." Schacht reverted to type yesterday when he threw a cup of steaming coffee at an Associated Press photographer who was in the act of taking his picture while at lunch. His behavior availed the ex-banker little. The photographer calmly wiped his camera and completed his job. This is the same Schacht who, when confronted "with a long record of broken vows and false words" at the Nuremberg trials, declared in justification:

"I think you can score many more successes when you want to lead someone if you don't tell them the truth than if you tell them the truth."

As U.S. Supreme Court Justice Jackson, the chief American prosecutor, said in his concluding address to the tribunal: "This was the philosophy of the National Socialists. When for years they have deceived the world, and masked falsehood with plausibilities, can anyone be surprised that they continue the habits of a lifetime in this dock?" The answer is obvious. Schacht did not wear the uniform of the Reichswehr, nor the blackshirt and jackboots of the S.S.; he wore the tall, stiff collar and frock coat of the banker. But he differed only from the rest of the gang on trial in his external appearance. He, too, was a disciple of the "blood and iron" doctrine.

THE BALANCE OF LIVING

CANADIAN FARMERS FOR A LONG time have complained that it is practically impossible to interest their sons in farming as an occupation. On returning from the war, many of them who had been interested in farming before going overseas prefer jobs in the cities. They regard shorter hours and a regular wage which gives them cash as a better "way of life" than being tied to the land and the products thereof. Their immediate returns in the city are more obvious than those gained by the risks of seasonal markets.

How much better off they are in the city after they have paid rent, taxes, direct and indirect, and bought much of the food they would have produced for themselves on the farm is questionable. What measure of real happiness do they obtain from the leisure of shorter hours? These are questions which constitute the balance of living as weighed between the farm and the city. They are always debated but never resolved, until maturity brings experience.

Bruce Hutchison

ADVICE FROM MR. WALSH

MR. F. P. WALSH is one of the most respected labor leaders in New Zealand, a nation ruled by a labor government. He is vice-president of the National Federation of Labor and represents it in the New Zealand Economic Stabilization Committee. He is also president of the New Zealand Seamen's Union and of the Wellington Trades and Labor Council. His advice to labor, therefore, is certainly not tainted with any anti-labor prejudice. On the contrary, in a report to the Federation of Labor, Mr. Walsh analyzes the problems of New Zealand and recommends solutions for them from the standpoint of the working man. His advice, because it touches so directly our problems here, will be read with interest and profit by Canadian labor.

MR. WALSH'S first warning to New Zealand labor is that there is only one way to improve the life of working people "and that is by the production of more goods and services." He is alarmed by an increase in the amount of money in circulation in New Zealand in relation to the amount of goods available. There are in New Zealand, as here, too much money and too little goods and the way to close this gap is to make more goods.

"This," he says, "is where the workers can do a real job. Provided we can get raw materials, it is within our own power to produce more goods and bridge the gap between money and goods. If we do not close this gap by our own productive effort, it will be closed for us. It will be closed perhaps by an inflation of prices, perhaps by a deflation of money and incomes. Both these things are poison in the economic structure. No effort should be spared to avoid them and to adopt the only sensible way out—namely, increased production.

"AND NOTHING," he adds, "should be allowed to interrupt the productive system. We cannot afford to have stoppages of production. Machinery exists in the Federation of Labor and in the government for the settlement of industrial disputes. This machinery is adequate and is there to be used. The history of disputes shows that it must be used at some stage and, therefore, the most effective way for our movement to use it is before the stoppage occurs. Every time a stoppage occurs, not only are wages lost, but goods are lost which are essential to the attainment of a higher standard of living, our primary objective. Unless the goods and services are produced it is not possible to distribute them. It is labor's responsibility to work for the maximum production of goods and services and anything which stands in the way of this is contrary to the best interests of the movement."

SINCE PRODUCTION of goods is labor's true objective, Mr. Walsh warns against further reductions in labor's working hours and hence its output. Such reductions at present, he says, will only increase prices, even though these prices may be disguised by government subsidies. The consumer, he points out, pays the subsidies as surely as he pays direct prices.

He says that employers, desperate for labor, are offering in some cases to reduce working hours to 35 a week. "On the surface, no doubt," he goes on, "some labor people will think this a victory. A careful analysis, however, will show that workers as a whole are not going to benefit by this reduction of hours while goods and services are in short supply. This and other schemes to attract scarce labor from one industry to another will not improve the overall labor position. Further they will tend to push up costs and prices and workers as a whole will pay for this in the goods they buy. The question of reducing hours should always be measured by the supply of goods and services available to the people. If there were over-production and stockpiles accumulating, then we would be justified in an application for a reduction of hours—not now when New Zealand's main economic difficulty is a shortage of goods."

MR. WALSH MAKES a realistic analysis of New Zealand's position which applies with equal force to Canada. He says it will be a grave mistake for New Zealand to build up uneconomic industries by any system of protection. It should concentrate instead on the development of industries natural to its resources, and trade the products of these industries for foreign goods, produced more efficiently elsewhere. This is, of course, simply a restatement of the classic doctrine of the division of labor, which is as true today as when it was first enunciated but is constantly denied by many industrialists and labor leaders in Canada.

One problem of New Zealand, as an exporter, is the same as the problem of Canada. New Zealand, Mr. Walsh says, must keep its prices down to a point where they can compete in the world market. "We must," he says, "keep farm costs down and, in fact, we must keep the whole cost structure of New Zealand down. This can be done without reducing living standards—provided production is increased."

IF ALL THESE objectives are to be achieved, Mr. Walsh insists that "for our movement to become a really effective force in the productive structure of our country, it is imperative that we have discipline within our movement. Individual and undisciplined action by parts of the movement weakens the strength of the movement as a whole. The unions must take steps to prevent such action, since any gains which are made by this expensive method, involving losses of production, could in fact have been gained through the normal machinery provided by the government."

Ration eats quickly. The poor aren't getting enough, and the greedy are killing themselves.

GLOBAL SURVEY

By J. M. ROBERTS Jr.
Associated Press
Foreign Affairs Analyst

"Those responsible for the defence of the nation (United States) must make their plans on the basis that there is and will be no adequate control (of the atomic bomb) on the international level."

That is the current policy of the United States War Department as defined by Secretary Patterson.

"The only complete defence against the bomb is a system that will avoid war," say the scientific advisers of Baruch, in a supplement to the U.S. control plan submitted for the guidance of the United Nations Atomic Energy Commission. "The remaining alternative is development of superior bombs and superior ways of delivering them to the target as counter-offensive weapons," the report also says, with the comment: "This might deter a nation from starting an aggressive war by making it apparent that victory is impossible."

Neither of these statements was made as a threat. Mr. Patterson was outlining his conception of his own job while awaiting the outcome of negotiations which are the business of others, for whom he prayed good speed. The statement of the Baruch group was contained in a report primarily directed at informing United Nations delegates of the beneficial results of atomic fission for mankind provided the nations can reach political agreement.

But there in cold words are stated the alternative—general peace or an all-consuming atomic armaments race, which as a matter of fact is already in its early stages.

We have the word of careful observers that Soviet fear of the atomic bomb is an important influence on foreign policy, and that strenuous scientific and industrial efforts are being made to "catch up." In Britain and in Canada, which co-operated in de-

development of the original bomb, important and expensive experiments are under way. The program in the United States continues at untold expense. No one knows what other peoples may be burdened with this war-preparatory load while struggling to rehabilitate themselves after the last one.

But it is clear that if it continues the whole world is headed for a bleeding of resources which will make the costs of Europe's ancient standing army system look like a child's candy allowance.

THE WORST SUFFERERS

Public airing of the steel dispute and other industrial problems should be welcomed on one count alone. It has led to a spelling out of much of the confused thinking by which various economic groups have approached their reconversion. It can be said that the only common ground which these groups seem to share, and they run the gauntlet of industry and primary production, is that their "theories" have been geared to the satisfaction of self-interest. No group has had a greater part in the shaping of the reconversion pattern than

organized labor. It is, unhappily, the fact that no group stands to suffer worse from the consequences of the present production shut-downs, which the Prices Board chairman asserts are having the effect of "economic sanctions," than the wage earners organized or otherwise. At the moment the only hopeful prospect for a reversal of the trend is that labor leaders will recognize the contradictions in their policies, as have the leaders of the major trade union movements in the United States—Toronto Globe and Mail.

POPULATION NEEDED

Increased immigration is necessary because it is obvious that 12,000,000 people cannot continue indefinitely to own, develop and defend a country as large and as rich as Canada.

Increased immigration means also that the domestic market is enlarged and that is important in view of the postwar improvements being made industrially and agriculturally in other countries.

Thomson Appointed Deputy Minister Of Labor For B.C.

James Thomson, member of the labor department staff since 1934, Vancouver manager of the Board of Industrial Relations and chief conciliation officer under the wartime labor regulations, has been appointed deputy minister of labor for the B.C. government, Labor Minister George S. Pearson announced today.

Mr. Thomson succeeds Adam Bell who retires Saturday, to take command of the British Columbia Workmen's Compensation Board, succeeding E. S. H. Wynn. Retirement of Mr. Wynn because of ill health was announced some weeks ago by Mr. Pearson. With the appointment of Mr. Thomson, Mr. Pearson announced several other appointments, as follows:

1. Andrew Whisker, enforcement officer and supervisor of inspectors in the labor department, will become chief administrative officer, as well as carrying on his responsibilities of enforcement of labor laws and direction of administrative offices and staff.

2. Robert Lennox, assistant factory inspector, will succeed retiring Herbert Douglas as chief factory inspector Sept. 30.

3. Mr. Lennox will collaborate with Mr. Whisker in enforcement, inspections and general administration under the Factories Act.

4. Hamilton Crisford will continue to administer the Apprenticeship Act and the Trades School Regulation Act.

5. Assisting Mr. Pearson on the Wartime Labor Relations Board, administering P.C. 1003 on behalf of the federal government, will be an executive staff of B. H. E. Gault, chief executive officer; Norman Lyons, registrar; Reginald Clements, assistant registrar; and William Fraser, senior conciliation officer, all members of the labor department.

There will be some further changes in administrative procedure, Mr. Pearson said, when new officers have had an opportunity to study their duties and work out their plans.

Mr. Douglas has been with the labor department since 1914. He is the oldest civil servant in the labor ministry.

"The change in the deputy ministry is being made at an opportune time," Mr. Pearson said.

"It will allow administrative changes in the labor department we had anticipated bringing about next October. These changes involve placing of additional administrative responsibility on some of our younger officials."

Mr. Thomson will devote his efforts largely to the Board of Industrial Relations, of which he will be chairman; to the Regional War Labor Board, of which he is vice-chairman; to the several minor boards set up under the various labor acts and to general advisership to the minister of labor.

Lambrick To Open Fire Convention

Reeve A. G. Lambrick of Saanich will give the opening address at the semi-annual convention of the Vancouver Island Firefighters' Association which is being held at the Saanich Fire Hall Monday.

This will be followed by drills and demonstrations staged by the fire departments of the Island for the remainder of the day.

The day-long convention will close in the evening with a dinner at the C.C.F. Hall on Douglas Street.

Transport Services Prepare For Record Labor Day Week-end

Sea, air, and land transportation companies here are readying themselves for what is expected to be the heaviest Labor Day week-end traffic seen in many years. Special runs are being scheduled to handle the anticipated rush of travelers.

The C.P.R.'s B.C. Coast Service will put on extra sailings at noon today, Saturday, Sunday, Monday and Tuesday. Reservations have been made for nearly all sleeping accommodation available. Black Ball Ferry Line has been rushed with applications for reservations for some days past and ferries already carrying record crowds are expected to be even more heavily taxed.

Both Trans-Canada Air Lines and Canadian Pacific Air Lines report their flights, with the exception of Sunday, are booked to capacity.

Vancouver Island Coach Lines Ltd. are putting on special runs to Shawnigan Lake and Sooke on Labor Day, according to C. G. Parrott, general superintendent. The company will use all available equipment to handle the anticipated rush of travelers.

E. & N. Railway looks forward to carrying hundreds of travelers between Vancouver Island points. Drive-yourself car agencies have been swamped with inquiries and nearly all cars are expected to be in full use over the week-end.

Other organizations catering to the holiday trade report they expect to have all facilities taxed to the limit.

Committees Discuss Rezoning Question

City transportation and fuel committee met the public works committee, under the chairmanship of Ald. J. D. Hunter, this afternoon to discuss the question of rezoning lots at Humboldt and Douglas Streets so that a service station and garage can be erected there.

The question came up at the last meeting of the City Council when the Town Planning Commission opposed the move to have the lots rezoned from apartment zone to permit a garage to be erected.

Ald. H. M. Diggon, chairman of the transportation committee, said he was anxious to have a full investigation into how establishment of a garage at that corner might snarl up traffic and interfere with proposed and present public transportation routings.

Before any City Council decision is made on the rezoning, the recommendations of the transportation and public works committees will be considered.

Timber Industry Pioneer Dies Here

Edward Elder, born at Etna Green, Ind., Jan. 4, 1873, died Wednesday evening at the family residence, Muir Creek, Vancouver Island. The late Mr. Elder was a well-known pioneer in the timber industry, having been actively engaged in logging and milling since coming to B.C. in 1907.

He leaves to mourn him, his widow, Mrs. Hattie E. Elder; two sons, Dal and Max; two grandsons, Jack and Howard Elder; two granddaughters, Mrs. Dan Garrison and Jo-An Elder, and two great grandchildren, Carol and Bobby Garrison.

Funeral services will be held from Hayward's Ltd. Saturday afternoon at 3. Interment at Royal Oak.

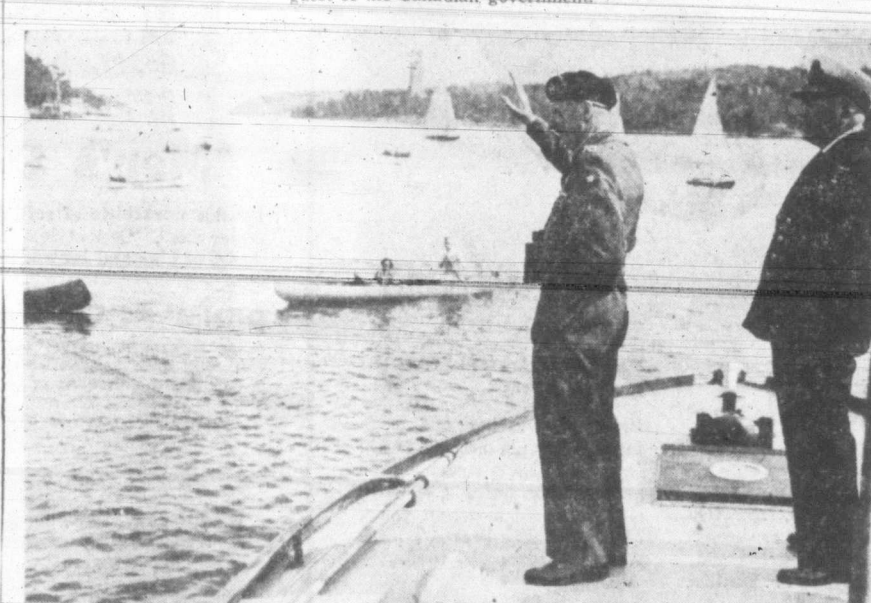

'Vitagraph Girl' Dies

HOLLYWOOD (AP)—Florence Turner—the "Vitagraph Girl" voted by exhibitors the most popular actress of 1915—died at the Motion Picture Country Home Wednesday night after a long illness. She was in her 60's. Miss Turner became a Vitagraph star when she was 17 and was playing screen roles until a few months ago.

'Monty' Friendly, Interested As Tour Starts

Premier J. W. Jones of Prince Edward Island presents Field Marshal Viscount Montgomery with a silver tray in token of the esteem in which he is held, as the field marshal starts his coast-to-coast tour of Canada which will bring him to Victoria next Wednesday. He is making the tour as a guest of the Canadian government.

Field Marshal Montgomery waves to canoeists on the North West Arm in Halifax. With him is Rear Admiral C. R. H. Taylor, commanding officer, Atlantic Coast.

The leading soldier of the British Commonwealth talks to a wounded private, Arthur Fisher of Musquodoboit, N.S., during a visit to Camp Hill Hospital in Halifax. Pte. Fisher was badly wounded in the leg while fighting in France.

Government Pays Tribute To Wynn

E. S. H. Wynn, retiring chairman of the Workmen's Compensation Board, today was paid high tribute by the British Columbia government.

Labor Minister George S. Pearson, speaking for the executive council, said:

"The government wishes to express its regret that the necessity has been brought about by Mr. Wynn's declining health. We sincerely hope his health will improve and that his years of retirement will be long and happy."

He hinted that Mr. Wynn's long and wide experience might still be available to the board.

"We hope," Mr. Pearson said, "that his retirement will not divorce him entirely from Workmen's Compensation matters and that his great experience may be available to the government from time to time."

"It is generally conceded," he continued, "the administration of the B.C. Workmen's Compensation Act has excelled any other

such act on this continent and that benefits granted injured workmen under this administration have brought comfort and blessings to thousands who, with the government, will join in an expression of gratitude for his services."

4 Graduates Awarded \$3,000 Fellowships

TORONTO (CP)—To encourage post-graduate scientific research, four graduates nominated by Canadian universities have been awarded fellowships worth \$3,000 a year for three years, it was announced by a selection committee Thursday night on behalf of the Imperial Oil Co. Ltd.

The awards were to Douglas E. Piper of Toronto for research in organic chemistry; Charles R. Steick of Edmonton from research in petroleum geology; Ivan M. Six of Turner Valley for research in petroleum engineering; and Owen C. Edwards, Vancouver, for research in mechanical or aeronautical engineering.

Also announced were awards of 10 four-year undergraduate scholarships across Canada and one in Newfoundland, each valued at \$500 a year, for children of wards of employees or former employees of the company.

Exchange Control Boost For Sterling

LONDON (Reuter)—Canada's decision to retain her foreign exchange controls despite the strength of the Canadian dollar is regarded here as a good omen for sterling.

Canada is not a member of the sterling area, but she may choose to retain the exchange controls until sterling regains its full convertibility. The Bretton Woods Agreement allows and encourages Canada, Britain or any other country to maintain exchange controls on capital transfers.

Canada still requires exchange control in relation to the dollar because she is not getting paid in convertible currency for her exports to the sterling area. She is resuming her prewar role of a large import surplus from the United States and a large export surplus to Britain—and she pays cash for the former without getting cash from the latter.

Kiwanians Here Next Week For Fishing Derby

Men of the business world in the Pacific northwest — from Washington State and B.C. points wearing the lapel button which identifies them as Kiwanis International, will invade Saanich Inlet around 120-strong Wednesday afternoon in a fleet of launches to seek big salmon with rod, reel and line that will place them "in the money" in the Victoria Kiwanis Club's two-week fishing derby.

Andy Stewart and Reg Hayward, who are arranging the program, point out that this is a dual fishfest. There is the local club derby, in which around 38 members will participate, and the international event, in which each of the clubs taking part will be represented by teams.

It will be a six-hour competition, starting at 1 in the afternoon and closing at 7, with Hugh Francis' camp at Sandy Beach (which can be reached from the Malahat or by boat) the official headquarters where all fish will be weighed. Patrolling the sport-fishing waters throughout the afternoon will be Joker Patton's trim "Aileen" bearing officials.

The international winner will be awarded the Straith Trophy—a silver rose bowl—and a replica. Second prize is an Indian sweater. A tackle box containing tackle is third prize and the fourth is a large reel. Top award in the local contest is the Hagar Cup, donated by president Denis Hagar and won last year by Straith, and a replica. Other prizes are: second, split-cane trout rod; third, club bag, and fourth, large reel. In addition to the prizes mentioned in these

two events there will be a number of hidden prizes.

LOCAL TEAM

Victoria Kiwanians entered in the international are C. Mullins, N. Hill, Vic King, O. Thompson, L. Drysdale, J. Cook, G. McClure and W. Straith.

Following the rod dueling, the contestants and invited guests will retire to the Colwood Golf Club for a dinner and windup party starting around 8.

In the international event three lines are allowed out on each boat, but they will be changed every half hour. Position of lines will also be drawn for every half hour. Members of the Victoria team in the Canada-U.S. event who catch a fish but do not make the prize list are eligible to qualify for the prizes in the local event with their catches. No two prizes will be awarded any one person.

Did Not Stop For Siren; Driver Fined

In one of the first convictions of its kind in police court here for many months, George Ochwell was fined \$15 or three days in jail Thursday for failing to drive his car to the right-hand side of the road and come to a stop on the approach of a fire truck.

The fine was imposed by Magistrate Henry C. Hall in afternoon Saanich court. Ochwell, represented by E. V. Findland, was said to have committed the offence on Quadra Street at Lodge Avenue Aug. 10.

Lieut. Thomas Moss and Fireman G. J. Lawrence of the Saanich Fire Department, said a car driven by Ochwell collided with a fire truck turning on Quadra Street from Lodge Avenue. The fire truck was responding with siren sounding, to an alarm from Mayfair Drive in the Mount Tolmie district. Ochwell said he had

heard a siren about two blocks before he reached Lodge Avenue, but that it had been impossible to tell where the sound of the siren was coming from.

MADISON, Wis. (AP)—John Stewart Curry, one of the lusty triumvirate whose painting carried midwestern art to the galleries of the world, died Thursday at 48 after a heart attack. He had been ill two days.

NEURITIC Pain

Mrs. Ida Shreve, 615 Church St., Toronto, suffered so much from Neuritic Pain, Lumbago and Sciatica, she could scarcely get about. She writes: "I had sharp pains and dull aches in my back, my right hip and leg. My flesh was sore to touch and I was miserable with pain and stiffness. Since I used Templeton's T-R-C's, I feel fine once more, able to get about comfortably and to get my proper rest at night."

If you ache all over or are stiff and sore in joints and muscles, get quick relief with Templeton's T-R-C's. T-R-C's are specially made to relieve Neuritic, Rheumatic, Arthritic Pain and Stiffness, Sciatica, Lumbago. Get a box today, 50c, \$1 at druggists. T-36

FOR SALE—AIRCRAFT

LICENSEABLE AFTER OVERHAUL

ALSO THREE TYPES OF LINK TRAINERS

War Assets Corporation offers, subject to prior sale or withdrawal, the following Aircraft and Link Trainers at various locations throughout Canada. All these craft will require overhaul to varying extent before being eligible for certificate of airworthiness by the Department of Transport.

CANSO "A" (PBY-5A)

Twin-engine, high wing, amphibian monoplane, powered by Pratt & Whitney R1830-51C3G or R1830-92 Engines. Eligible for Canadian Certificate of Airworthiness with modification. Adaptable for passenger or cargo conversion, which can be carried out in Canada.

PRICED AT: \$25,000 and downwards, depending on condition.

CESSNA CRANE

Light twin-engine, low wing, cabin monoplane, powered by Jacobs L4MB engines. Eligible for Canadian Certificate of Airworthiness subject to certain modifications. Adaptable for light commercial work and executive transport.

PRICED AT: \$800.00

ANSON V.

Twin-engine, wooden construction, low wing monoplane, powered by Pratt & Whitney Wasp Jr. R985-AN12B and R985-AN14B engines, and equipped with Hamilton Standard or Hoover Constant Speed Propellers. Eligible for Canadian Certificate of Airworthiness. Adaptable for light feeder airline work, passenger and cargo or executive transport work.

PRICED AT: \$5,000.00

HARVARD II.

Single engine, low wing monoplane, previously used as an advance trainer. Tubular fuselage construction, metal wings, and retractable undercarriage. Powered by Pratt & Whitney R1340-AN1 or commercial designation S3H1, 550 h.p. engines. These aircraft are now eligible for Canadian Certificate of Airworthiness. Ideal for executive work or sportsman pilot.

PRICED AT: \$900.00

FAIRCHILD CORNELL

Manufacturer: Fleet Aircraft Ltd., Fort Erie, Ont. Single engine, low wing monoplane, fabric covered tubular metal fuselage with plywood covered wooden wings. Equipped with Plexiglass coupe top canopy, landing flaps, fully swivelling tail wheel, fixed undercarriage. Powered by Ranger 200 h.p. in-line engine. Eligible for Canadian Certificate of Airworthiness subject to center front spar modifications. Adaptable for private ownership, club or school use, or light executive transport.

PRICED AT: \$800.00

LINK TRAINERS

Service Type "E" and British Type "D" are equipped with all blind flying instruments, desks, and recorders, less wind-drift attachments. Elementary Type "C" have straight gyro panel, desk and recorder. These machines will operate on 250 or 115 volt, 50-60 cycle power only. Power cycles other than as referred to require the assistance of power converters.

PRICED AS FOLLOWS:

Service Type "E" — \$400.00
British Type "D" — \$250.00
Elementary Type "C" — \$ 50.00

These aircraft are not presently in a flying condition; they will need servicing to make them temporarily eligible for ferrying permits to overhaul bases. They will require overhauling depending on their condition to comply with Department of Transport standards for Certificates of Airworthiness.

These Aircraft will be sold on an "as-is-where-is" basis, ex storage location.

These aircraft are located throughout Canada and persons wishing to inspect and determine locations should make known their requirements to the Chief of Aircraft Sales Division, War Assets Corporation, 4095 St. Catherine St. West, Montreal 6, P.Q.

No Public Ownership Vote On Transit Labor Told

The question of public ownership of the unified transportation system will not be submitted to the ratepayers of the four Greater Victoria municipalities before bids are called, Ald. H. M. Diggon, chairman of the Greater Victoria Transportation committee, bluntly told the labor delegation, after a sharp exchange of words between himself and Charles Chivers at a meeting Thursday.

Mr. Chivers pressed the point, accusing the committee of not having given consideration to any of the merits of public ownership of the system, after Ald. Diggon had presented a seven-page brief explaining the committee's stand and answering the labor plea for public ownership made to the Victoria City Council on Aug. 15.

Ald. Diggon stressed that in the specifications being offered at the time tenders are called provision is made for the municipalities to take over the system on a public ownership basis even five years during the 20-year term of the franchise. He suggested that the labor group organize a campaign to educate the public in favor of public ownership during the next four years, so that the citizens would be prepared to support the move.

COST MORE?

R. F. Williams, another member of the labor delegation, suggested in answer to this that it would cost the municipalities more to take over an efficient and running unified transportation system after five years' operation than it would for them to start out and establish their own system. Ald. Diggon answered: "We think not."

Ald. Diggon went on to explain that he did not feel the public were sufficiently informed on the matter to vote intelligently at the present time. "We have not even published the proposed specifications," he pointed out. "At the present time we are concerned only with providing an efficient transportation system, giving the public good service at the lowest possible fare."

"That's public ownership," declared Mr. Chivers. "It is not," parried Ald. Diggon. "It's an efficient transportation system."

UNCALLED FOR

Mr. Chivers then accused the transportation committee of wanting to shunt its duties onto

private citizens when the chairman suggested the labor committee's needs of public ownership. "That is uncalled for," declared Councilor George Austin, who represented Saanich.

In his prepared statement Ald. Diggon started out by stating that the committee was in "full agreement with the brief that utilities should be owned and operated by the public as rapidly as they can be taken over and operated efficiently under public ownership."

He then proceeded to advance eight reasons why he did not consider it advisable for the municipalities of Greater Victoria to take over the ownership of the transportation system at the present time, as follows:

EIGHT REASONS

1. Transportation has not reached the stage of development such as telephones and electric light so that it can be classed as past the experimental stage. Until this occurs and it is definitely determined which mode of transportation is most efficient for a city the size of Victoria.

"We do not regard the time as opportune to embark upon the public ownership of such system."

2. Past history has shown that private automobiles are a serious threat to public transportation systems, and while they are profit-making during war periods and when cars are scarce, "the threat is still there, which makes the utility a very poor one for the initiation of public ownership in this area."

3. Exemption of publicly owned utilities from taxation simply throws additional burdens upon other taxpayers.

4. Controls now exercised by the Public Utilities Commission on service, fares and profits of a privately owned transportation system would largely disappear if it became publicly owned, thus removing some protection from the public.

5. It would take months, and possibly years, to bring the four municipalities into agreement on public ownership, whereas at the present time they are practically agreed on specifications to call for bids from private companies.

6. This would mean "we would continue to suffer under our present transportation which, as you point out, is lacking in unity and is obsolete."

7. Examination of urban trans-

Now Comes The Granddaddy Of All Knots

mittee educate the people to the portation generally does not support the contention that the municipality would make large profits from owning its own system. "In most instances the earnings were only slightly more than enough to pay fixed charges."

8. Under the terms of the proposed specifications the company gaining the franchise will have to pay 4 per cent of gross revenue to the municipalities, with a guaranteed minimum of \$33,000.

GUARANTEES OF SERVICE

C. W. Marshall of the Joint Labor Conference asked for information on what provision is made to ensure that the operating company will continue to give the service contracted during the full term of the franchise.

Ald. Diggon explained that the company would be required to post a large bond for the duration of the franchise, and that the transportation commission would be empowered to keep close check on all phases of service and see that it was maintained up to standard. At any time it fell below standard the company would face the loss of its bond.

Mr. Marshall praised the transportation committee for the work it has done, but contended that it should submit its full report to the people of the four municipalities in a referendum asking their opinion on public ownership. He insisted it would be better to wait a few months more with the present service and have the question settled.

George Wilkinson, secretary of the Victoria and District Trades and Labor Council, queried Ald. Diggon's statement that there was little profit in public transportation. "If that is so," he insisted, "Why are the private companies interested in tendering for the system?"

Present at the meeting from the municipalities were Reeve Thomas Hadfield, Esquimalt; Councilor Austin, Saanich; Reeve Walter Walker, Oak Bay; Ald. Diggon and Ald. J. D. Hunter for the city.

'Ants In Pants' No Excuse For Fire

Blaming "ants in his pants" for his action, a resident of Saanich Road was berated for using the expression in police court Thursday afternoon and was fined \$10 for kindling a fire out-doors without first getting a permit to do so.

The accused pleaded guilty to the charge and said he would like to address the court before sentence was imposed. When given permission to do so, he said:

"I was working in my garden when I came across a stump infested with white ants. Before I knew it I had ants in my pants, and it made me so angry that I lit a fire in the stump without thinking. I realize I should have applied to the fire department for a permit before lighting the fire."

Magistrate Henry C. Hall frowned on the accused's excuse and told him such expressions as he used were not called for.

Canadian Fishing Ships' Gear Damaged By Foreign Vessels

OTTAWA (CP) — Fisheries Minister Bridges said Thursday in the Commons that no foreign governments had yet been approached on the question of Canadian fishing gear being destroyed by foreign trawlers operating on the Quere Banks off Nova Scotia.

It had been established that Canadian, United States, Newfoundland, Spanish, Portuguese and French trawlers were operating on the banks when the destruction occurred. However, skippers had not been able to identify definitely the trawlers which caused the damage to gear in broad daylight and in clear weather.

The government had received complaints that five schooners had suffered \$1,350 worth of damage to gear as a result of the actions of the foreign trawlers. Eight other Canadian skippers interviewed reported no damage.

Mr. Bridges said the question had international complications and was one which fell under the jurisdiction of the Department of External Affairs. Into the same category fell the question of an agreement with the United

States on division of offshore fishing waters.

It was possible both questions would be dealt with during the discussion on External Affairs Department estimates.

After the Fisheries estimates were adopted the Commons turned to discussion of finance appropriations.

Trades Minister Mackinnon said that if an agreement is reached at the International Wheat Conference in Washington it would likely mean greater returns to Canadian farmers for all the years covered by the recent four-year wheat agreement with the United Kingdom. The International agreement would supersede the agreement with the United Kingdom.

B.C. Salmon Pack Down 50 Per Cent

Despite reported good catches of Fraser River sockeye in the Straits of Juan de Fuca and Gulf of Georgia, British Columbia's salmon pack to last Saturday totaled only 503,101 cases, half the pack at that time in 1945, and the lowest total for at least the last six years.

While the sockeye pack, small in the north this year, has been brought up to 228,924 cases, it is still only two-thirds of last year's 318,307 case pack at this time.

Pinks caught so far this year have produced only 80,044 cases.

Union Agreement Signed For Restorer

A collective bargaining agreement has been signed by the Commercial Pacific Cable Co., New York, owners of C.S. Restorer, and the Victoria branch of the Seafarers' International Union of North America (A.F.L.) covering all unlicensed personnel aboard Restorer, about to leave Victoria for a long Pacific cruise.

Signing for the company was Capt. J. H. Connelly. William McLaughlin represented the union. Terms of the agreement will be made retroactive to the signing date following approval.

Hours of work on shipboard will be adjusted from 56 per week to 48 for watchkeepers and from 44 in port to 40 per week.

Provision is made in the agreement for the loading of all cable in U.S.A. mainland ports by longshoremen. Loading of stores other than ships stores will be paid for at the overtime rate. Overtime pay for all members of the stewards department for Saturday afternoon and Sundays in port is provided.

Annual holidays with pay will be paid to all unlicensed personnel covered by the agreement.

She Hated Men

NEWARK, N.J. (CP)—Louisa Strittmater's hatred of men went beyond the borderline of sanity, a Newark court ruled this week in upholding objections of relatives to the will of the fanatical man-hater who died in 1944.

Miss Strittmater, who left writings showing that she had looked forward to the scientific day when women would be able to hear children without the aid of men, left \$100 and her personal effects to Mrs. Ruth Robbins, her second cousin and only female

relative, and \$15,000 to the National Women's Party.

Two first cousins of Miss Strittmater, both men, joined with Mrs. Robbins in contesting the will in which they were not mentioned. They alleged, and the court agreed, that Miss Strittmater had been of unsound mind.

Mr. and Mrs. P. A. Noir, 140 Beach Drive, will spend the long week-end with friends in Auburn, Washington.

Sound Marriages Basis Of Happiness

OTTAWA (CP)—Permanent marriage is the only possible lasting basis of sound home life and "women have a great responsibility in rebuilding home life in the postwar world," Mrs. Fisher wife of Most Rev. Geoffrey Francis Fisher, Archbishop of Canterbury, believes.

"A nation cannot be great if its homes are not great, and without permanent marriage there cannot be a happy Christian life," she said in an interview yesterday.

Visiting in Ottawa with her husband, who is on his way to attend the Synod of the Church of England in Canada at Winnipeg, Mrs. Fisher said, "Just as you must have a good foundation for a house you must have a foundation of absolute trust between the husband and wife and to be trustworthy they must be completely truthful with and to each other."

Speaking of family worship, she said:

"Among my strongest and happiest memories is, as one of a family of 12 children, coming to church with my parents."

Although she cannot claim to be the first wife of an Archbishop to visit Canada she is the first to visit west of Quebec.

"We are enjoying the trip immensely," she said, adding that she was looking forward to meeting leaders of women's organizations of the Anglican Church in Winnipeg where she will have a chance of learning more about their work in Canada.

Leaves Sunday For Position In Ottawa

Miss Mildred Edmonds, daughter of Mr. and Mrs. P. J. Edmonds, 1360 Pembroke Street, has accepted a position with the National Research Council, Ottawa, and leaves Sunday to take up her new work.

Born in Victoria, Miss Edmonds attended Girls' Central School, Victoria High School, Victoria College, and graduated with a Bachelor of Arts degree at the University of British Columbia.

She won the Victoria and district scholarship, ranking second in the city in matriculation examinations; the David Spencer scholarship for mathematics in first-year college and a Khaki Memorial Bursary in second-year college.

Personal Notes

Mr. and Mrs. J. F. Morrill have returned to the Oak Bay Beach Hotel after a trip to Colorado Springs.

Mr. and Mrs. Robin Gordon who have been staying at the Oak Bay Beach Hotel, have left to make their home in Shanghai, China.

Miss Margaret Evans and Miss Lilian Conway, who have been holidaying in Vancouver and Seattle for the past two weeks, will return to their Victoria homes the beginning of the week.

Mr. W. A. Patterson, advertising manager of the Victoria Daily Times accompanied by Mrs. Patterson, left this afternoon on a business trip to eastern Canada and the United States.

Mr. and Mrs. H. H. Ryall with their two children, Barbara and Barclay, left today for their home in Fort Worth, Texas, after spending the past 10 days in the city as the guests of Col. and Mrs. H. T. Goodland, 3075 Cadboro Bay Road.

Miss Kathleen McIntyre and Miss Elizabeth Forbes entertained at the tea hour today at the Priory, Pemberton Road, in honor of Miss Marjorie McDougall, a September bride-elect. Mrs. H. P. Hodges presided at the tea urns. There were 14 guests.

Mrs. Percy Harrison and her two children have arrived in Toronto, after having flown from England. They are expected in Victoria next week and will make their home with Mrs. Harrison's mother, Mrs. Charles Spencer, Cadboro Bay.

Col. B. Russell Ker and Mrs. Ker are entertaining today at their home, 1470 Rockland Ave., with an after-five party in honor of Brig. R. A. Fraser and Mrs. Fraser, Montreal; Mr. and Mrs. Dick Jones, New York, and Mr. and Mrs. J. F. Morrill of California.

Miss Evelyn Watson, an August bride-elect, was honored recently with a miscellaneous shower given by Miss Vera Parfitt at the home of Mrs. N. Harwood, 2662 Fernwood Road. Corsage bouquets of pink and white carnations and of pink gladioli were presented to the guest of honor and her mother, Mrs. William Watson. Others invited were Mesdames D. Blake, H. Getson, J. Carr, J. Clegg, E. Dyer, J. Miller, C. Porter, M. Parfitt and Misses Janet Lambie and May White.

Miss E. Murphy of Edmonton is visiting Mr. and Mrs. James Taylor at Towner Bay.

California visitors staying at the Oak Bay Beach Hotel include Mr. and Mrs. J. L. Lillenthal, Mr. B. P. Lillenthal, Miss Ann Lillenthal, San Francisco; Mr. and Mrs. Samuel Levinson, Sacramento; Miss Irene O'Reilly, Oakland. Other guests are Mr. and Mrs. G. Lyall Fraser, Vancouver; Mr. L. N. MacComiskey, Honolulu; Mr. and Mrs. Ben Anselmo and daughter, Portland; Mr. and Mrs. E. L. Smith and daughters, Seattle.

Mrs. W. F. Oakley and Miss Lilian Curtis were joint hostesses at a miscellaneous shower on Wednesday at the home of their parents, 1250 Pandora Avenue, in honor of Miss Marjorie Parsons, a September bride-elect. Invited guests were: Mesdames L. W. Parsons, H. MacDonald, Renton, Wash., D. MacDonald, Shawigan Lake, J. C. Curtis, A. M. Curtis, M. Bishop, W. A. Roper, D. Sharpe, C. Rasmussen, K. Whittle, Durrance, L. Gordon, G. Gaetz, R. Sage, W. Eden, H. W. Curtis, Misses Bernice Lerik, Gwen Martin, Connie Jones, Thelma Gaetz, and Thyra Gaetz.

Mr. and Mrs. J. Wilson Miller of Los Angeles, accompanied by their son and his wife, Mr. and Mrs. W. Lockwood Miller of London, Ont., and their small grandson, Jimmie, are staying at the Empress Hotel. Mrs. J. W. Miller is a past president of the Women's Canadian Club of Los Angeles. Mrs. W. L. Miller is active in the London Little Theatre of which her husband is vice-president. The party motored to Victoria from the south and the W. D. Millers will motor home to London, visiting Banff and Yellowstone Park en route.

Miss Marjorie McDougall, popular September bride-elect, was the principal at a miscellaneous shower Thursday evening given jointly by Mrs. H. Bishop and Mrs. F. Parfitt at the home of Mrs. C. Wakeman, 1421 Fairfield Road. A headband of freesia, sweetheart roses and cornflowers and a corsage bouquet of white gladioli centred with pink roses was presented to Miss McDougall, and her mother, Mrs. R. F. McDougall, received a corsage bouquet of pink carnations and freesia. Gifts were presented to the guest of honor by little Alma Wakeman. Others invited were Mesdames J. Drake, E. Callow, J. Naysmith, R. Hundleby, C. Wakeman and C. Marsden and Misses M. Jones, M. Dean Freeman, and K. McIntyre.

Mrs. E. R. Blake, was hostess Wednesday with a miscellaneous shower at her home, 2329 Foul Bay Road, in honor of Miss Phyllis Hooper, a September bride-elect. Carnation corsage bouquets were presented to the bride and groom-elect, Mrs. H. P. Hooper and Mrs. D. J. Kroeker. Others present were Mesdames A. R. Stanford, L. Hooper, R. Lamb, R. Perullet, C. Joyce, W. Pearson, H. Kelso and Misses Margaret and Audrey Harness, Margaret Neilson, Ethel Hole, Mary Alexander, Muriel and Evelyn Williams, Gladys McKnight, Amy and Jean Harness, Sheila Sherar, Helen Mitchell, Dorothy Gardner, Doris Hooper, Sylvia Hooper and Master Donald Kelso.

Miss Kathleen Gorrie of Gordon House, Vancouver, was a guest at the Sinclair-Blatz wedding, Thursday.

Mr. Steve Brynjolfsson of Powell River is visiting his mother, Mrs. M. Brynjolfsson, 335 Walter Street. He is accompanied by his young daughter, Margaret.

Entertaining a few Victoria friends at luncheon, Miss Evelyn Larkin of San Francisco was hostess Thursday at the Empress Hotel.

Mr. Allan Edwards of Winnipeg will arrive in Victoria on Monday to join his wife who has been visiting her parents, Mr. and Mrs. H. C. Grant, Cavendish Avenue.

Mr. and Mrs. J. E. Goldring entertained Wednesday at their home on Bessborough Road in honor of Mr. and Mrs. Omar Sturges, who are visiting here from Los Angeles.

Miss Evelyn Larkin, San Francisco, and Miss Edith Jones, Weyburn, Sask., have been staying at the home of Miss J. C. Ferguson, McNeill Avenue. Miss Larkin, who is a member of the Women's City Club, San Francisco, will return to the south on Sunday. Miss Jones will reside at Cherry Bank for a short time and later will be the guest of Rev. W. W. McPherson and Mrs. McPherson.

Honoring Miss Aileen Merrett, a September bride-elect, Miss Naomi Webb and Mrs. Frank Bridgett were hostesses Wednesday at a miscellaneous shower given at the home of Mrs. R. Barker, 33 Maddock Avenue. Miss Merrett was presented with a corsage bouquet of gardenias. Misses Webb and Olga Green served refreshments. Others present include Misses G. Doucet, Barbara Kemp, Barbara Durbin, Shirley Scott, Betty Mitchell, Fran Robertson, Lorraine Welch, Rose and Blanche Couselan.

Honoring her daughter, Rita Marie, who is being married this week to Mr. Clifford Pecknold, Mrs. Paul A. Fecteau, 530 Lampson Street, entertained at a trousseau and gift display tea Thursday afternoon. Mrs. H. W. V. Pecknold presided at the tea table for which sweet peas in a low bowl formed an attractive centre piece. In the evening, former associates of the bride-elect and friends were also received. Mrs. W. H. Eastland, sister of the bride-elect, poured tea, assisted by the groom-elect's sister, Miss Maureen Pecknold.

Misses Dorothy Prescott, Betty Townsend, and Mrs. J. Townsend were joint hostesses at a miscellaneous shower held at the latter's home, 3307 Kingsley Street, in honor of Miss Lucy McGee. The September bride-elect and her mother were presented with corsage bouquets. Games were enjoyed during the evening. Those invited were: Mesdames R. W. Payne, H. Getson, T. Custance, S. M. Bell, A. G. Taylor, G. Edwardson, A. MacLean, A. Schade, E. Crookford, H. Mewes, H. Baker, F. G. Palmer, Geo. Palmer, J. McGregor, H. Beveridge, J. M. McGee, J. Townsend, R. H. Mezger, T. Currie, G. Brown, J. Cooper, Misses Betty MacLean, Dorothy Prescott, Neanie Brown, Elsie Summers, Irul Deakin.

Dorothy Dix

Dear Dorothy Dix: I am engaged to a young woman whom I love very much, but she hesitates about getting married because she thinks that being just a wife and mother will be so humdrum and monotonous a life that it will be just a form of slavery.

What can I do or say to change her attitude?

WORRIED FUTURE HUSBAND.

Answer: Well, I should say that any girl who does not regard marriage and making a happy

home for her husband and children as the finest and most interesting career that she can follow had better stick to her typewriter, or her clerking, or her teaching, and walk high, wide and handsome around the altar.

Nature never intended her for domesticity, and she never gives her husband a square deal because her heart is not in her work. You have to put enthusiasm into making a happy home, and the woman who considers children a bore and that it isn't worth-while to spend her energies in getting up good dinners for her husband, is a poor bet as a wife.

My advice to you is not to try to overpersuade the girl into taking on a task that is not to her liking.

Personals

Miss Patricia Gallahar returned to her home, 1023 Colville Road, Wednesday after visiting with Dr. and Mrs. J. J. Gillis of Merritt, B.C.

Miss Hazel Barton, daughter of J. S. Barton, C.M.G., and Mrs. Barton, Wellington, N.Z., is the guest of her cousin, Mrs. R. D. Harvey, 2469 Hazel Street. Miss Barton, who was on the staff of a service hospital in New Zealand for 4½ years during the war, has just completed an occupational therapy course at Toronto University. She sails for home via San Francisco, as soon as passage is available.

Miss Faith Woodward, a September bride-elect, was honored at a shower given by Miss Rosemary James and Miss Peggy Low, at the home of the former's parents, 2385 Todd Road, on Wednesday evening. A corsage bouquet of gardenias and sweet heart roses was presented to the guest of honor. Invited guests included Mrs. Laurence Woodward, Mrs. Helen Low, and Misses Constance Woodward, Felicity Woodward, Phillis Pritchard, Barbara Moresby, Mildred Edmonds, Barbara Henderson, Winona Ross, Betsy DeBeck, Peggy Pepper, Nan Wilson, Alice Tourtelotte, Edna White, Pam Mitchell, Daphne Syson, Joan Wilsher, Lillian Emerson, Polly Young, Margaret Elliot, Valerie Austen-Leigh, Joy Monday, Joan Pope, Betty Hutton, Freida James and Bunny Farrant.

Clubwomen Return From Canadian Tour

Mrs. Lillian Smith, immediate past president of Victoria Business and Professional Women's Club, and Miss Minnie Beveridge, president-elect, have just returned from a two-month vacation trip to eastern Canada and the Maritimes.

Mrs. Smith and Miss Beveridge left Victoria the latter part of June to attend a national convention of Federation of Business and Professional Women's Clubs at Toronto. From there they went on to London, Guelph, Ottawa, Montreal and Quebec.

St. John's, N.B., was their next point of call, then Yarmouth, N.S., where Miss Beveridge was born; Wolfville, where they visited Acadia University; Kemptville, where Mrs. Smith's brother-in-law and sister, Mr. and Mrs. H. A. Renfree, live, and then Halifax.

They were widely entertained by friends and relatives and by executives of Business and Professional Women's Clubs in Halifax, St. John's and Montreal.

Returns From Visit To Fiji Islands

Mrs. M. E. Pike, daughter of Mrs. A. B. Cotton, Terrace Ave., returned this week from an eight-month visit in the Fiji Islands.

Leaving Victoria last October, Mrs. Pike traveled via San Francisco, Tahiti, Rora Tonga and New Zealand. Returning, she flew to Australia, via New Caledonia, where she took passage on a Dutch freighter. The trip home took just under a month.

"If I hadn't got passage on that particular freighter," she says, "I might have been held up until next Easter."

War brides coming to the States are given precedence, she explained; every available boat being "simply crammed" with them. There are still a number of Hongkong evacuees to come home, too. On the Dutch freighter with Mrs. Pike were women and children who have been waiting passage since 1940.

"We were very crowded," she says, "a cabin the size of an ordinary living-room to every 12 women. But everyone was good natured, laughed at inconveniences and we had a good trip."

A baby was born during the crossing and there was an emergency operation. Mrs. Pike, who is a practical nurse, was pressed into service on both occasions.

"We used the galley table for the operation," she says with a laugh, "and we sterilized the instruments on the galley stove." "The patient lived," she added quickly, "and when we got into port we were congratulated on the work we had done."

Mrs. Pike loves the Fiji Islands and believes they will become the Hawaii of the south Pacific.

There is about 5,000 white population, 120,000 natives from India working in the cane fields and the same number of Fiji

Islanders who are carefully protected by law.

A tremendous development is going on at present, in sugar production, gold mining and fish canning.

"Of course, the housing and building problem is as bad there as it is in other places," Mrs. Pike explains. Then she quickly adds, "but there is no rationing, no servant problems and very low income taxes."

This is Mrs. Pike's 10th trip "down under" and she plans to go back again in about six months' time.

"I've applied for a land lease in the Fijis," she says, with an earnest smile, "I'm going back this time to start a dairy farm. I really mean it."

Mrs. Pike has three children. Christopher who was a pilot officer in the R.C.A.F., now taking an engineering course at Victoria College; Margaret just starting her third year at University of British Columbia; and Idina, who enters the next nurses' training class at the Royal Jubilee Hospital.

Y.P. Societies

Corn Roast—Members of St. Mary's senior and junior A.Y.P.A. attended a "corn roast" at Wilfrid Beach Wednesday. Baseball, games and a sing-song were enjoyed. The senior A.Y.P.A. will commence its fall meetings on Sept. 11 at 7.30 and juniors on Sept. 10. Corporate Communion will be held Sept. 15. A breakfast will follow for both branches.

Convenes Harvest Ball

Mrs. Doris Ewer, convener of the Harvest Ball, sponsored by the Veterans' Handicraft Club, which takes place Sept. 5 in the upper ballroom at the Crystal Garden.

Others on the committee are Mesdames Ursula Wilkinson,

Irene Holmes, Ada Roche, Misses Nelda Hilditch, Clara Krubinski, Muriel Petherbridge, Rose Boulet, Mary Harvey, Octavia Dunnand and Viola Sands.

Proceeds will go toward instruction, equipment and material for handicrafts carried on by veterans of all the services.

Bustles Feature Paris Fashions

PARIS (AP)—Bustles and brilliant colors were the most striking features of Elsa Schiaparelli's fashion show here today.

The bustle—termed "Illusion" by Schiaparelli—is a small curved cushion nowhere near the size of the one grandma wore and it is placed strategically in the middle of the back well below the waist. Combined with the long sheath-like bodies of Mme. Schiaparelli's formal gowns, it gives a slender look to the figure—or so the Madame claims.

Crude brilliant greens, reds, blues and purples are shown in contrast to muted shades in many of the dressier items in Schiaparelli's collection. Tobacco browns are favorites in the tailored-suit category.

Schiaparelli's suits this year are sticking with the clean smooth line of last year's article with the exception of some traveling ensembles featuring bulky sleeves and shoulders which contrast with slim skirts reaching well below the knee. Many two-piece outfits featured contrasting skirts and jackets.

Afternoon frocks in the collection featured a revival of the "Bateau decolletage," or boat-shaped neckline for the uninitiated. Widely cut from shoulder to shoulder, it is shown with tiny sleeves, sometimes a mere ruffle. Most of the dresses are black with contrasting bright sequins, embroideries and spangles.

Married 44 Years

On the occasion of their 44th wedding anniversary, Mr. and Mrs. Edwin Clark celebrated Tuesday evening at a family party at 1828 Adanac Street with their nine sons and one daughter. Mr. and Mrs. Clark were married Aug. 27, 1902, by the Rev. Archibald Ewing at St. Andrew's Presbyterian Church.

Those attending were Miss C. L. J. Clark, R.N., Mr. and Mrs. Earl K. Clark and Christine, Mr. and Mrs. Ray C. Clark and Shirley, Mr. and Mrs. Arthur E. Clark and George Clark, all of

Victoria; Mr. and Mrs. Stanley P. Clark with Tommy and Barbara, Mr. and Mrs. Leslie D. Clark with Carolyn and Donna, all of Duncan; Mr. and Mrs. Edwin H. Clark Jr. and Raymond, of Langford; Mr. and Mrs. Wilfred L. Clark with Saron and Roland, of North Sooke; and Mr. and Mrs. Douglas L. Clark of Shirley, V.I.

to advise not only those who wish to attend the College, but any who desire
information.

BOARD OF SCHOOL TRUSTEES OF VICTORIA

ST. MARGARET'S SCHOOL

★ VICTORIA, B.C. ★

FOUNDED 1908

provides a thorough education on modern lines from Kindergarten
to Matriculation, preparing girls for the Universities and the pro-
fessions. "Home Economics" is offered as an optional course for
Matriculation. As well as the prescribed academic courses, Music,
Dramatics, Crafts, Athletics, Hiding and Swimming are taught.
There is a well-equipped Gymnasium and opportunity for out-
door sports all the year round. Careful attention is given to
character training and preparation for social responsibilities and
citizenship. A high academic standing is maintained by a fully
qualified staff.

THE
Trained Man
is in demand

A course with Sprott-Shaw is
an investment in business ef-
ficiency that will aid you not
only in the immediate future
but through the years to come.
Designed to aid you meet mod-
ern business conditions with up-
to-date methods and knowledge.

Good Training Means a Good Job

Stenography, Secretarial, Clerical, Civil Service, Book-
keeping, Higher Accountancy, Business Administration,
Office Machines, Radio Telegraphy

EX-SERVICE PERSONNEL... Learn the generous
allowance the Government will make to help you through
a Course at Sprott-Shaw.

SCHOOL of

Sprott-Shaw Has Efficiency Reputation In Business Life

For over 60 years the name of "Sprott-Shaw" has been synonymous with the highest standards of business training, carrying not merely a Victoria or a B.C. reputation but a Dominion-wide reputation for efficient modern preparation in every phase of business life. Originally established

in 1886 in Ontario, the school came to Victoria some 30 years ago. Since that time it has steadily progressed growing, not only in attendance but in scope, offering the student training that has been and still is the latest and most modern, abreast of and in advance of the times. More and more the employer of today has come to recognize the value of good training. More and more they have come to rely upon the graduate from Sprott-Shaw Schools as one who has undergone intensive study of modern business methods, boasting a foundation of knowledge on which to build practical experience.

The school is a member of the organization known as the Business Educators' Association of Canada. This organization has been built up to sponsor better business training and membership is rigidly held to only those schools who have shown their ability to instruct with the utmost efficiency in every branch of commercial preparation. Stringent standards regarding the establishment, staff and equipment must be approved and adhered to. Membership in the B.E.A. is an honor eagerly sought and closely guarded.

SPECIALIZED LINES
In addition to the recognized courses in stenography, business administration, bookkeeping, accountancy and every other branch of commercial work there are many specialized lines. Prominent among these is radio telegraphy and in recent years this has developed to form an important part of the school's work. During the war years the forces placed great reliance on graduates from Sprott-Shaw and now as the

world turns once more to the ways of peace the demand for commercial operators is ever increasing. To hold a post in radio telegraphy on land or sea demands the possession of a Department of Transport certificate, no matter what training the applicant may have had previously and it is for the winning of this certificate that Sprott-Shaw has geared staff, equipment and instructors.

Located in a central downtown locality, the school has some 7,000 feet of floor space to house the spacious, well-ventilated, well-lit classrooms. In a school of this size it is possible to have a specialist in charge of each of the various departments and this policy is adopted by Sprott-Shaw. This makes possible individual attention and instruction so that the student is not dependent on the progress of others but can move forward in the subject in pace with his or her own capabilities.

The facilities offered by the government to ex-service personnel for a free course of training at Sprott-Shaw have been and still are being made full use of and the special needs of the veteran are given every consideration. During normal times the service of placing the graduate in suitable employment is offered free, though at present the demand for students from Sprott-Shaw is so great that the demand far exceeds the supply.

The principal is ready at all times to discuss the best course suited to the individual prior to enrolment and he brings to bear a wide and varied experience and fund of knowledge. Every effort is made to assist in securing accommodation for out-of-town students.

Veteran Resumes Music Teaching

Formerly music master at Shawinigan Lake School, James Gerry has, after five years service with the army, resumed the teaching of singing, organ, harmony, and counterpoint, at 1702 Stanley Avenue. A pupil of the late Dr. Haydn, at Peterborough Cathedral, and of Dr. Gordon Slater, he is an Associate of the Royal College of Organists. Mr. Gerry studied voice culture in London, Eng., with Ernest Reed, professor and fellow of the Royal Academy of Music, and is a Licentiate of the Royal Academy. He taught for 11 years in England before coming to Canada.

Giving his views on the subject of singing, Mr. Gerry said, "There are few really outstanding singers in the world, but with proper training, any voice can be developed to give untold pleasure to the performer and to his or her audience, provided a certain amount of musical ability is present. To attempt to force a style, foreign to a particular voice, is obviously wrong. Every voice has its own possibilities and charm."

In conjunction with Miss Una Calvert's studio, Mr. Gerry gives individual instruction, and holds classes for the complete preparation of candidates for the Royal Schools, and Toronto Conservatory, in harmony, counterpoint, etc., in which outstanding successes were gained in recent examinations. Classes begin in early September.

Coupons Run Out

OTTAWA (CP)—The Prices Board warned consumers today that butter coupons R-10 to R-17 and meat coupons M-40 to M-50 will be invalid for purchases after Aug. 31. These coupons became valid up to Aug. 15. The board said "beaver" and "buffalo" coupons, issued to members of the armed services and other temporary ration cardholders, are not affected by the change.

Record Movement Of Wheat Predicted

WINNIPEG (CP)—All signs pointed today to a record movement through Vancouver of wheat from Canada's current prairie crop, with a consequent reduction in shipments overseas by way of Great Lakes and east coast ports.

gave two reasons for their belief:
1. The shorter rail haul involved in shipping through Vancouver from certain western prairie points means a saving of from one to five cents a bushel as compared with movement through the Lakehead.
2. Indications now are for a prairie wheat crop approaching 440,500,000 bushels—the largest since 1942—with good yields in Alberta and Saskatchewan, the areas which stand to benefit most from shipment via the west coast.

A key point in the benefit to farmers through shipment through the west coast is the fact that the Canada-United Kingdom wheat agreement embraces a uniform price basis of \$1.55 a bushel for wheat delivered to Churchill, Man., Vancouver or the Lakehead.
It follows naturally that the Canadian Wheat Board, sole marketing agency for the Do-

minion crop, will attempt to deliver wheat with the least possible freight charge.
"There will be a very big movement (of wheat) through Vancouver," said George McIvor, Wheat Board Head.
"In the 12 months ended July 31, 1946, there were 65,000,000 bushels out of Vancouver and west coast ports and we hope to exceed that figure in the next year."

Opening OF HIGH SCHOOLS

GREATER VICTORIA SCHOOL BOARD

In order that parents of students not previously registered through Victoria city schools may interview the principals, the offices of the following schools will be open as follows:

VICTORIA HIGH
August 26 to 30

Cardinals Determined To Shatter Tradition

Racing down the stretch, St. Louis Cardinals are trying to explode the theory that the team in first place on July 4 usually wins the pennant.

On that day the Cards were trailing the National League-leading Brooklyn Dodgers by 7½ games and appeared hopelessly out of the race. Today they are 2½ games in front of the flock.

The Cards gained a full game yesterday when they shut out New York Giants 4 to 0 as Chicago Cubs were beating the Dodgers 3 to 2.

Howie Pollet, the Cards' ace, hurled the shut-out over the Giants, limiting the New Yorkers to five hits in registering his 17th triumph. Dave Koslo lost his 15th game.

Phil Cavarretta's seventh-inning single broke a 2 to 2 tie for Hank Borowy's ninth victory in the Cub-Dodger tie.

The victory moved Chicago only six games behind the Dodgers.

Detroit, which hadn't won a game at Fenway Park until Wednesday, made it two straight over Boston Red Sox, 9 to 8, in 14 innings. The winning run resulted on George Kell's walk, a single by Roger Cramer and a force play by Hank Greenberg.

Dizzy Trout, in relief, won his 11th game while Dave (Doc) Ferriss, trying for his 12th straight, was driven from the box in the sixth.

The New York Yankees clinched the season series with Cleveland on a 9 to 1 victory in New York behind the nine-hit pitching of Randy Gumbert.

Boston Braves' hopes to overtake the third-place Cubs were maintained alive when they defeated the Reds in Cincinnati 4 to 1 behind the six-hit pitching of Ed Wright.

The season's smallest crowd, 1,124, saw Philadelphia Phillies shove the Pirates deeper into the National League cellar with a 5 to 2 victory in Pittsburgh.

The scheduled Chicago White Sox-Washington game was postponed by rain while Philadelphia Athletics and St. Louis Browns were idle.

NATIONAL LEAGUE

Brooklyn	9	1	0
Chicago	3	6	1
Pittsburgh	2	10	4
Batteries: Melton, Casey, Lombardi and Edwards; Borowy, Pym and Livingston.			
New York	0	3	0

Batteries: Koslo and Cooper; Pollet and Klutts.			
Philadelphia	5	9	3
Pittsburgh	2	10	4
Batteries: Raffensberger and Seminick; Bahr and Lopez.			
Boston	4	10	1
Cincinnati	1	6	1
Batteries: Wright and Padgett; Walters, Heusser and Mueller.			

AMERICAN LEAGUE

Detroit	9	10	1
Boston	2	17	4
(14 innings)			
Batteries: Benton, Trucks, Trout and Tobetta; Richards, Ferriss, Brown, Ryba, Friesover, Klinger and Wagner.			
Cleveland	9	3	3
New York	0	12	0
Batteries: Gronow, Lemon and Heuss; Gumbert and Robinson.			

Patty Berg Advances In Spokane Tourney

SPOKANE, Wash. (AP) — Sturdy, red-headed Patty Berg, Minneapolis professional, led the parade of women golfers into the quarter-finals of the women's national open golf tournament Thursday with a blazing 5 and 3 victory over professional Mary Moez of Portland, Ore.

Matches today will pit Spokane's Betty Jean Rucker, northwest amateur champion, against professional Betty Hicks, Long Beach, Calif., Ellen Kieser, San Francisco amateur, against Betty Jameson, San Antonio, Tex., professional, and Dot Kietly, Long Beach, Calif., and Mrs. Clara Calender Sherman, Pasadena, Calif., in an all-amateur contest.

TORONTO WINS SOCCER

TORONTO (CP) — Toronto United's soccer team Thursday won the Dominion Football Association's Canadian title by beating Fort William 7 to 1 to win the best-of-three Canadian final in two straight games.

Stier took the first game against the combined army-air force-navy veterans team Tuesday by 3 to 1.

ESQUIMALT WINS

Esquimalt Meat Market defeated K.V.'s 9 to 3 at Central Park last night to advance in Poodle Dog Cup football competition.

'Y' Track Stars Seek Titles At Nanaimo Meet

British Columbia championship laurels will be the aim of a squad of Victoria Flying "Y" track and field performers, coached by former Olympic star Bruce Humber, when it invades Nanaimo to participate in the Labor Day meet Monday.

Besides Victoria, entries have been assured from Vancouver and other provincial points for this running and jumping title program sponsored by the up-island city's Native Sons' organization. It is the first meet staged by the Sons since 1940, the war forcing a closedown.

Victoria "Y" boys and girls who made such a fine showing in the Highland Games at Macdonald Park late last month will make the trip. The team will be nine in strength. They have been working out twice weekly at the Victoria High School grounds.

There is some doubt as to whether Harry Mitchell, a fleet-footed senior sprinter, who was a double winner—100 and 220-yard dashes—in the recent games, will be able to show, owing to the fact he has an injured tendon.

In the junior boys' division, Spike Dalzel and Bob Sam will sport "Y" colors in the 100 and 220-yard events.

Joe Fisherwood will be entered in the 440, Cliff Salmond, who has reduced his time to 4.30 over the mile route in recent trials, is entered in his specialty distance.

Bert Thirwell and Don Wilson are the "Y" hopes in the men's jumping. Thirwell gained a first in the Highland Games. In the fair sex department, Elaine Silburn and Pat Fleming will be gunning for titles for the local athletic association. Miss Silburn will run in the 100-yard dash. Both will participate in the broad and high jump events.

Results follow:

First race—Claiming, purse \$800, three-year-olds and up, six furlongs and 165 yards. (Husheals)

Streamline (Connell)	\$15.40	\$4.35	\$3.30
Lord Broke (Hallier)	---	2.90	2.35
Lady Bertrava (Storrie)	---	3.15	---
Time, 1:27.5. Also ran: My Tom, Silacum, Shasta Sue, Ever Smooth.			

Second race—Allowance, purse \$800, three-year-olds, seven furlongs. (Husheals)

Admiral Fleet	\$4.10	\$2.45	\$2.15
Laurel Lady (Sperris)	---	2.45	3.40
Sister Dolan (Haller)	---	3.20	---
Time, 1:39.2.5. Also ran: Bruks, Callaluck.			

Third race—Claiming, purse \$800, three-year-olds and up, six furlongs. (Husheals)

Western Comet (Haller)	\$12.40	\$3.50	\$2.85
Miss Enderby (Haller)	---	3.60	2.60
Time, 1:32. Also ran: A Help, Ashes Only, Better News, Castrophe.			

Fourth race—Claiming, purse \$800, three-year-olds and up, mile and one-sixteenth. (Husheals)

Craftsman (Sperris)	\$8.75	\$3.95	\$3.20
Lady Arden (Wilburn)	---	6.25	4.65
Pepper Pot (Christians)	---	7.75	---
Time, 1:51.3. Also ran: Pass Forward, Ance Peay, Shingle Lad, Bandra.			

Fifth race—Allowance, purse \$800, three-year-olds and up, seven furlongs. (Husheals)

Valinda Lancer (Haller)	\$3.45	\$2.85	\$2.80
Cabin Guide (Sperris)	---	3.40	3.60
Time, 1:38. Also ran: Little Pine, Marion Somers, Strath, Miss Olivia.			

Sixth race—Juvenile Handicap, purse \$1,000, two-year-olds, seven furlongs. (Husheals)

Venus Keith (Wilburn)	\$3.15	\$2.55	\$2.50
World Wide (Haller)	---	3.15	2.95
Time, 1:28. Also ran: Vegas Jack, June Elizabeth, Van Vic.			

Seventh race—Claiming, purse \$800, three-year-olds and up, six furlongs and 165 yards. (Husheals)

Yorl II (Christians)	\$49.85	\$10.20	\$7.10
Acorn Pal (Schwartz)	---	3.35	2.80
Time, 1:27. Also ran: Filarworth, Bob Jack, Craig An Affir, Superior, Silavroc, Quinella.			

Cricket Matches Scheduled Tomorrow

The Victoria and District Cricket Association alstars, who will take on Vancouver's cream of the crop Monday on the mainland, will all be in action tomorrow afternoon when the four teams in the local circuit meet in a pair of games.

The leading Oak Bay club will oppose Sailors at Beacon Hill and Albions will take on Five C's at Windsor Park, both games starting at 2.30.

Line-ups follow:

Oak Bay—Dobbie, Reg. Wenman, Brewin, Sparks, Hobday, L. Morgan, O. Morgan, Parkins, Jones, Tisdall, Robinson. Reserves: McNairst and Scott.

Albions—Pritchard, Gibbons, Oakman, D. Pite, Swainson, Currie, R. Rowe, Thorne, Leadbeater, McIlvenny, Edwards.

Five C's—George Payne, A. Griffin, Shrimpton, Harper, Pugh, Attwell, McKeachie, Mat Hughes, Hardt, Comley, Gardiner and Van Deuten.

Women Oppose Men At Uplands Links

Sunday, Sept. 8, there will be a competition between a women's team and a men's team at the Uplands Golf Club. Any one wishing to enter kindly put names on the lists on the club notice boards. The competition will be match play with the difference between men and women's par added to the latter's handicap.

Dinner will be served in the clubhouse at the conclusion of the match. Draw and starting times will be posted. Entries will close on Sept. 2.

Greenberg Will Not Drop Into Minors

BOSTON (AP)—Hank Greenberg, Detroit Tigers' first baseman Thursday spiked frequent reports that he would retire after this season, but asserted that it was the "big leagues or nothing."

"If the Tigers want me to play next year, I'll be happy to play in Detroit," he said. "But I'll tell you this: I'll not play in St. Paul, Kansas City or any minor league town. It's the big leagues or nothing for me."

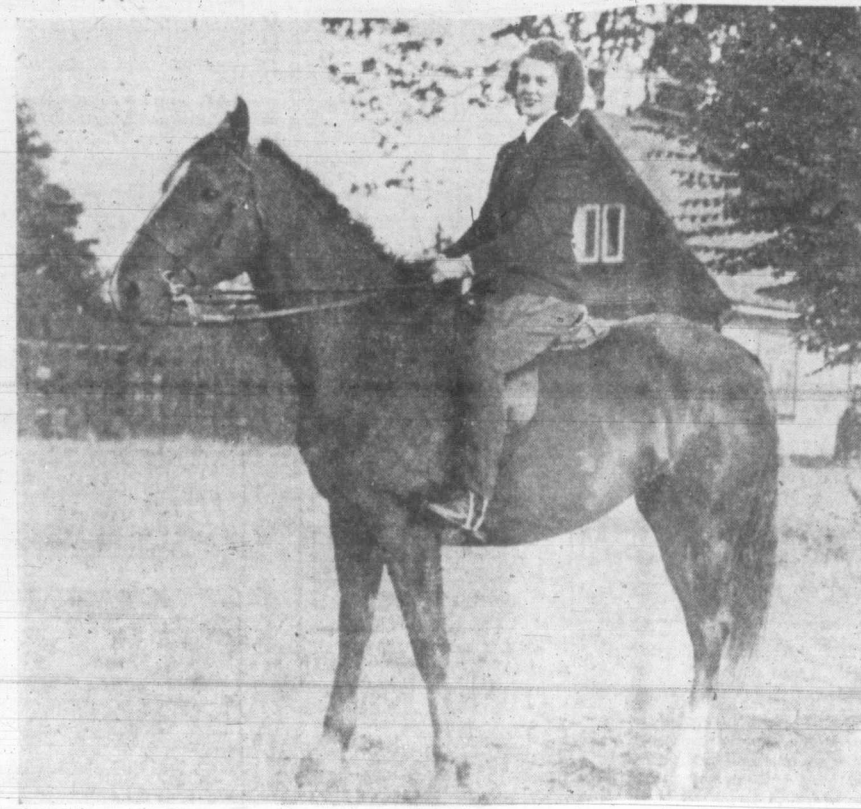

Jimmy Melanuk, Saskatoon pitcher, struck out 13 batters, Samfy Radu, Girdoys pitcher, struck out four. Girdoys were held to six hits to nine by the home club.

league town. It's the big leagues or nothing for me."

league town. It's the big leagues or nothing for me."

league town. It's the big leagues or nothing for me."

Will Appear At Saanich Fall Fair Monday

KAY HITCHCOX ON MAJOR

One of the features of the annual Saanich fall fair Monday at the Saanich agricultural grounds will be the riding events for both youngsters and senior riders. Seeking the honors will be a large group of members from the Victoria Riding Academy. In addition to Miss Hitchcox there will be Pam Pendray, Nona Dawson, Marion Miller, Janet Straith, Jimmy Haggert and Jim Booth. In the children's group Dorothy Curry, Jackie Patmore, Heather Whitworth and Sheila Olson will be among the entries.

THE VICTORIA DAILY TIMES SPORTS

FRIDAY, AUGUST 30, 1946

Vancouver Slaughters A's Mound Staff For 22-7 Win

Greeting the Victoria pitching staff like second cousins, Vancouver Capilans breezed to a 22 to 7 victory over the Athletics in last night's Western International League ball game. It marked the fourth straight win for the Caps, giving them the series four games to one. Teams left on the night boat for Vancouver where they open a five-game stand tonight.

Athletics return home Tuesday to take on Bremerton for three games, their final home series of the season. They then leave for Yakima to wind up the season with four games, after which the team will break up with some of the players rejoining Coast League clubs and the remainder going to their respective homes.

JENSEN OFF FORM

For close to 2,000 fans last night's performance was one of the season's biggest disappointments. Bob Jensen started on the mound and turned in his worst home exhibition. He was far from his usual self, while he walked four men, three of them with the bases loaded to force in runs. Jensen went to the showers in the fifth after giving up eight hits for 12 runs. Before the finish the Caps had picked up an additional eight hits and 10 runs off Musgrave, Bass and Oliver.

Southpaw Jim Hedgecock was the winning hurler, being charged with 10 hits, while he struck out a like number.

Only bright features for the fans were the six strikeouts Jensen got, with a struggle, to boost his total for the season to 285, and the four home runs divided by first baseman Jake Suyter and centre-fielder Eddie Murphy. Ray Orteig, Bill Brenner and Hedgecock pounded circuit blows for Vancouver.

WENATCHEE WINS

League-leading Wenatchee edged Tacoma 12 to 11 and Yakima trounced Spokane 15 to 1. The Wenatchee triumph came in the last of the ninth after Tacoma had staged a five-run rally in the first half to tie the count at 11 to 11. A double by pinch hitter Gene Caviglio followed by three walks by pitcher Bob Hedding produced Wenatchee's winning tally.

Salem's home-run barrage was led by Hal Summers with two. Single four-base blows were contributed by manager Ted Gullie, Ted Kerr, Verne Reynolds and Eddie Wheeler.

The one real pitching chore of the night was contributed by Yakima's Al Yaylian, who gave up but four hits and held Spokane scoreless until the ninth. Gene Thompson paced the winning attack with a four-run homer in the seventh.

Short scores:

Tacoma	11	16	4
Wenatchee	12	13	2
Batteries—Colombo, Hedding (5) and Kemper; McCollum, Cronin (9) and Pesut.			
Salem	15	16	1
Bremerton	6	7	1
Batteries—Wyatt and Kerr; Sullivan, Marshall (6) and Volpi.			
Yakima	15	11	0

SCORES HOLE-IN-ONE

Playing over the Colwood course this week Reg Wood scored a hole-in-one on the 148-yard seventh hole. He used a six iron. Other members of the foursome were Alan and E. Knight and Bill Findlay.

SOCCER PRACTICE

The Victoria entry in the Pacific Coast League will hold a soccer practice at Central Park Saturday morning at 10.30. Those interested are asked to attend.

Outstanding Dogs Will Show Tomorrow At All-Breed Event

Outstanding dogs of the Pacific Northwest will be on exhibition tomorrow at the Bay Street Armories for the all-breed championship show of the Vancouver Island Dog Fanciers' Association. Judging will open at 10 and continue until late in the evening when the specials, including the best-in-show, will be awarded.

Heading the large entry from the state of Washington will be a Boston terrier and Pekinese. The former owned by Mrs. Cora Long of Olympia, Wash., went best-in-show at the recent Spokane event while the Pekie, owned by Mrs. Sara Smith of Seattle was judged best toy at the same show. Both purebreds are rated outstanding specimens and their appearance here will no doubt create added interest.

Other leading breeders who will show include: Dollymount Kennels of Tacoma, Wash., with an Irish setter, four times best in show; Donald Due of Seattle with his two great cocker spaniels, one of which has gone best in show three times; A. C. Spraggings with his dachshund which took best in show at Tacoma last year; C. W. Koberman of Vancouver with best in show at Spokane last spring; W. M. Maynard of Victoria who made his doberman a champion in three straight shows; and J. H. Flinders of Tacoma with a Kerry blue terrier which has made four best in shows in the last 18 months.

Mrs. Beatrice Godsol of San Francisco will judge all breeds. On exhibition at the show will be Pie Wallace, famous mascot of the 16th Canadian Scottish Regiment, accompanied by his trainer Staff Piper Andy McGeorge.

Col. R. D. Travis of the Canadian Scottish will present the trophies.

McKeachie, Mason Pace Legion To Boxla Win

With Jimmy McKeachie and Red Mason providing scoring punch to the extent of almost half their team's goals, Art McKim's Canadian Legion battlers of the lacrosse box vaulted into the lead in their championship final series with Tom Carney's Jokers last evening when they emerged triumphant by a 15 to 5 count in the playoff opener at Stevenson Park.

It was a verdict that retained for the Legionnaires their undefeated record this season. The two outfits will collide for the second go in their best-of-five game contest, Tuesday evening, starting at 6.30, at the same spot.

The stands on the west side of the box were pretty well full, and in addition there were many watchers from vantage points in parked cars. The game was not as one-sided as the score would indicate. Legion-employing good tactical form and excellent passing, did fourth-fifths of their scoring in the first 30 minutes of play, but in the latter half the Carney-piloted unit settled down and made things pretty tough for their opposition.

Goalies Ernie Gawley of Jokers and Buzz Long of the Legion turned in fine performances, their work drawing cheers many times.

The game featured lots of lusty stick swinging and heavy body checks. Once again the game wound up with the dusk settling in fast, which prompted president Doug Fletcher to urge the players to be out on time and get play going at 6.30 in order to finish with lots of daylight.

Score at the end of the first quarter read 6 to 1 for the Legion. Both sides equalized their first 15 minutes scoring in the second round. Stiff defence work by both sides made goals extremely scarce in the final two periods.

Toward the finish Jokers were getting into fine stride, but it was too late to close the wide gap.

Fletcher reported that money contributed by playoff watchers would be turned over to Tillamook, junior representatives in the local league, and the winner of the current playoff series. This plan is to provide the teams with a little revenue to seek further silverware beyond the local scene.

Winners of the present series will be the Victoria intermediate champions and will oppose Nanaimo's No. 1 unit for the island crown, victor in that to go up against the mainland's top intermediate team. In regards to the Tillamooks, they are the only juniors on the island and will go direct into the B.C. playoffs.

McKeachie topped the evening's scoring brigade with a quartette of tallies and Mason was close on his tail with three goals. Nine penalties were handed out, two of them for five-minute sessions in the cooler.

Teams and scores follow:

Jokers—Gawley, Oveharik, Cumming, Brown, Thomas, Douglas, I. Sage, Coates, I. Reid, Druce, Harding, I. Carter; Lavery.

Legion—Long, Mason, J. Watson, Cullin, P. Popham, Baker, J. McKeachie, A. Ranson, T. McCaghey, T. T. McKeachie, E. McKim, Rhodes, T. A. McKim.

Share With the Hungry—Leftover egg whites will keep for a day or two in a tightly covered container in the refrigerator.

Expert Recommends New Y.M.C.A. Building To Cost \$400,000

Declaring "you have a 1910 building here for 1946's use, it is obsolete and inadequate to suit the needs of a greatly expanded community," John W. Ogg, director of the Y.M.C.A. Building Bureau, New York, recommended to the "Y" board of directors and representatives of the Community Chest the erection of a new and modern building to house the local association.

"A new building will enable the Y.M.C.A. here to present a better and more extensive program to reach two or three times the number of people now being served—and, yet, at the same time, will not cost the community more than at present, as it will pay its way to a considerable degree," Mr. Ogg said, in summing up.

Mr. Ogg was of the opinion a \$400,000 expenditure would provide a suitable building to serve the community for the next 40 years, noting that it should be constructed to allow additions in the future.

In dealing with the design of the new building, Mr. Ogg said that the modern association structure demands such design that activities of several different age groups could go on at the same time with none interfering with each other.

His recommendations took into consideration that the younger people of today were demanding higher standards of service, both in equipment and leadership. "The building should be planned to cater to their more exacting wishes."

The visitor noted that in his travels on behalf of the Y.M.C.A. he had found little trouble experienced in raising funds for "Y" activities. He did not consider Victoria would have difficulty in attaining its objective in the building campaign. Accompanying Mr. Ogg was Donald Forbes, director of the San Francisco West Coast Building Bureau.

Patients of the Veterans' Health and Occupational Centre, Gordon Head, and their families Wednesday enjoyed a picnic at Mount Douglas Park. More than 200 attended the picnic, participated in sports including softball, children's races and a tug-of-war, and had an outdoor supper.

WHEAT SHOT FROM GUNS

They'll Do It Every Time

The DOCTOR Says:

CLEFT LIP, PALATE DEMAND EARLY REPAIR

By WILLIAM A. O'BRIEN, M.D.

Cleft lip (harelip) and cleft palate result from failure of the various pieces of the mouth and face (which nature assembles in jigsaw puzzle fashion) to grow together before birth.

Prenatal impressions, so frequently blamed for cleft lip and palate, cannot cause them, as the parts are normally joined together prior to the 11th week, long before the mothers are "frightened."

Heredity plays an important part in causing the condition, as several cases may occur in the same family, and family histories may show the condition has been present in past generations. It is impossible to predict when a cleft lip and palate will occur, for good genetic information is too scanty at the present time.

CONDITION VARIES WIDELY

Although the face may fail to grow together in several places, the most common variety of cleft is in the lip. The opening may be on one side or on both, and the condition varies from a small notch in the soft palate to a wide open fissure.

An infant with a cleft lip should have the opening repaired as quickly as possible after birth. Surgeons can operate in the first few weeks and join the separated portions together. This makes it easier for the baby to be fed, and also aids in the control of respiratory infections.

When the lip is drawn together at birth, the jaw bones have a better chance of developing normally, even though the palate may be separated. The nostrils may show a tendency to flatten, but this can be repaired later. It is not wise, however, to permit the deformity of the nose to persist too long.

If a cleft in the palate is present, it is usually sewed to

gether later, when the child is a few years old.

SPEECH TRAINING ADVISED

Early speech training is recommended in every case. Even though some children who have had a badly-deformed mouth do not seem to have much speech difficulty after repair, others have a great deal of trouble. These children should be taught by speech clinicians, who usually are connected with the schools. If speech clinicians are not available, the mother should obtain information as to how she can help with the training at home.

Difficulty in speech after repair of the palate usually is caused by leakage of air in the nose. Children with repaired cleft lips and palates should feel loved and wanted. Mothers might well pay special attention to their dress, and everyone should encourage them to lead normal lives.

657 School Pupils Given Medicals

During the last three months of the last school term school doctors examined 657 children in Victoria and Esquimalt, it was reported today in the quarterly report of Dr. J. L. Murray Anderson, medical health officer.

During the same period there were 6,284 nurses' inspections, and 529 home visits. The school work of the city health nurses accounted for 33 per cent of their work, while T.B. control, necessitating 350 visits, accounted for 22 per cent; venereal disease control, 157 visits, 10 per cent; other communicable diseases 214 visits, 15 per cent, and other health matters 329 visits, 20 per cent.

There were 601 children treated at the schools and 104 brought into the Health Centre, Dr. Anderson stated. A total of 2,924 inoculations were given in the schools.

Smallpox vaccinations accounted for the greatest number of immunizations completed among schoolchildren, with 3,002 having been vaccinated during the three-month period. There were 10 immunized for diphtheria, two for whooping cough, 37 for combined diphtheria and whooping cough and five for scarlet fever.

There were 36 well-baby clinics held during the quarter, with 675 babies looked after. Of these 154 were new babies.

Building permits have been issued to R. C. Clark to build a 5-room house at 2521 Prior Street, \$5,000; to A. F. Matthews

Uncle Ray

MARINE TURTLES ARE LARGEST MEMBERS OF TRIBE

If you have spent a few weeks in the country this summer, it is likely that you have come across one or more turtles. These animals are fairly common in most sections of our continent, and summer is their favorite time for getting around. In Canada and the colder parts of the United States, they hide away during the winter season.

Today I should like to take up a few questions about turtles. Here is the first one: "Are all turtles able to hide their heads and legs under their shells?"

The answer is "no." Some kinds of turtles perform this trick, but others have shells which are too small for the purpose. Land turtles usually hide themselves completely under their shells, but water turtles seldom can do so.

"Do the shells of turtles grow with the passing of time?"

Yes, a turtle tends to add to the size of his shell each year. The greatest growth takes place during the early years of a turtle's life. When the animal becomes old, the growth slows down until it can hardly be noticed from year to year.

"Do turtles have teeth?" Not in the sense of "ivory teeth," as in mammals. Yet turtles have horny beaks, and some of the beaks have sharp cutting edges which can be used for powerful bites.

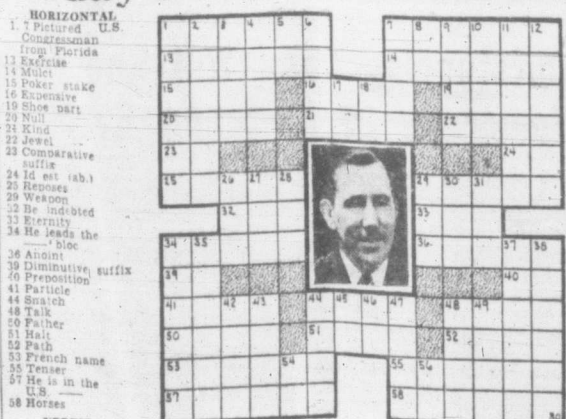

"Do turtles have voices?" Yes, they can utter sounds. The females seldom make much noise, but the males go all the way from piping to bellowing. The larger kinds do the bellowing.

"Do turtles lay eggs?" Yes, they lay round eggs which are buried in sand, or loose earth.

"Where are the largest turtles found?" In the sea. Those which swim in salt water go by the name of "marine turtles." The Galapagos islands have giant land tortoises which weigh as much as 500 pounds, but these are much smaller than marine leathery turtles. Leathery turtles sometimes reach eight feet in length and weigh three-quarters of a ton.

to build a 4-room house at 1050 Kings Road, \$5,000; to R. F. Heimbecker to build a 4-room house at 424 Stannard Avenue, \$5,000; and to J. C. Haggarty to build a 5-room house at 140 Bushby Street, \$5,000.

Assure Sanitation In Restaurants With New Methods

Strong action is being taken by the City Health Department to ensure that sanitary standards in restaurants in the city and Esquimalt are brought up. Dr. J. L. Murray Anderson, medical health officer, said today.

Already one restaurant proprietor has been fined \$20 for failure to comply with regulations for proper dishwashing methods.

The proprietor claimed, in court, that he was not able to have his help carry out the necessary measures to treat dishes with chlorine to the satisfaction of the health inspector, but Magistrate H. C. Hall warned that by-laws relating to restaurant sanitation were for the protection of the public and were not to be treated lightly.

A new method for checking the effectiveness of restaurant dishwashing has been introduced by

E. S. Cropp, senior sanitary inspector, Dr. Anderson said. Restaurant inspectors now carry small bottles of sterile water with them, cotton swabs, a thermometer and test papers. The temperature of dishwater, the amount of chlorine in the rinse are measured, and then the inspectors wipe the freshly washed dishes and glasses with the moistened swab and send it to the laboratory for analysis.

The census of bacteria surviving the dishwashing tells how effectively the dishes are cleaned in the restaurants examined.

Sea Hitch-Hiker

B.C. Police today were delivering James Crawford Bissett of Seattle to Vancouver where Canadian immigration officials will investigate his status.

Bissett was taken off a small island at the north end of Vancouver Island Thursday by a police boat after hearing reports a man who "thumbed" a ride north aboard a U.S. fishboat had jumped overboard and went ashore on Balaklava Island.

Short-Wave Radio For B.C. Police

Installation of two-way high-frequency radios in some cars of the B.C. police here for a 30-day try-out, was announced today by Inspector C. G. Clark.

The experiment follows closely the installation of a two-way radio system in police and fire equipment of Oak Bay. City and Saanich forces have had radios in their cars and fire trucks for several years.

Among the B.C. police cars to

be equipped will be those of the Highway Patrol under Constable Jack Lockie.

"We are not sure yet how the radio system will serve over the wide expanse of territory which we cover," Inspector Clark stated in explaining the reason the installation is being made as an experiment in only some of the department's cars.

The system will be connected with the short-wave radios of the city and municipalities.

Scottish Veterans Form Montgomery's Guard-Of-Honor Here

Victorian's newest crop of ex-servicemen—all World War II veterans—will form the Canadian Scottish guard-of-honor for Field Marshal Viscount Montgomery when Britain's leading war figure visits Victoria briefly Wednesday.

The Scots will don colorful, traditional Highland dress for the occasion. Capt. H. Gonder, M.C. and Lieut. Jack S. Grimmond, D.C.M., will be in command of the guard, which will number 50 personnel. In addition there will be the pipe band, which will include overseas canine veteran mascot, Wallace.

The Scottish personnel have been well-rehearsed for their role to honor the man who was their chief in the overseas war theatres.

The guard will fall-in at Bay Street Armories at 10.40 Wednesday morning with bayonets fixed and will be inspected an hour later at the Parliament Buildings.

Led by the pipe band in command of Pipe Major Ian Duncan, the guard will take the following route to reach the buildings: Bay Street to Douglas Street, Douglas to Yates, Yates to Government and Government to the Legislative Buildings. They will return over the same route. The guard will be drawn up in two ranks facing the buildings.

The administrative order announces the following parade dress:

GUARD
Boots F.S., short puttees, Rob Roy diced black and red hose, single red hose flash, kilt, battle dress blouse, Glengarry, khaki web belt (no scabbards to be worn).

PIPE BAND
Pipes—Blue Glengarry, green doublet, Hunting Stewart hose tops, green hose flashes, black cross belt, white spats, Hunting Stewart kilt, Hunting Stewart shawl.

DRUMS—Feather bonnet, scarlet doublet, white belt, Hunting Stewart kilt, Rob Roy hose, red flashes, white spats.

OFFICERS
Officers will wear the same dress as the guards, with the exception they will wear balmorals and leather sporrans.

Garage Shortcut Brings \$5 Fine

The practice of some motorists of driving through gas station driveways to avoid stop signs entering arterial highways does not free them from liability in stop sign charges, Magistrate Henry C. Hall ruled in Saanich police court Thursday afternoon.

A bus driver, driving a private car, was fined \$5 for taking a shortcut through the driveway of a Gorge Road service station, thus missing a stop sign.

With the fine went a warning from the magistrate that being a bus driver, the accused should take extra precautions and not try and escape liability the way he did.

Two Local Mothers Give Birth To Twins

Two Victoria mothers gave birth to twins within a day of each other in St. Joseph's Hospital Maternity Wing this week. On Wednesday twin girls were born to Mr. and Mrs. Oren Bradshaw, 2538 Fifth Street, their weights 5 pounds 6½ ounces and 5 pounds 5 ounces.

Mr. and Mrs. James Cunningham, 13 Maddock Street, became the proud parents of twins, a boy and a girl, on Thursday. The boy at birth weighed 5 pounds 12 ounces and the girl, 5 pounds 7 ounces.

Fire Near Forest Brings \$25 Fine

Pleading guilty to a charge under the Forest Act that he started a fire during the close season within a half mile of a forest, G. Lavigne, proprietor of the Lantern Inn, Four Mile Hill, was fined \$25 and \$250 costs by Justice of the Peace A. I. Thomas in provincial police court at View Royal on Thursday afternoon.

Town Topics

Victoria Public Library will be closed all day on Monday.

The appointment of Miss Sonja Kilgard of Vancouver as a case worker in the city welfare department will be recommended to Tuesday's City Council meeting. Ald. Margaret D. Christie, chairman of the welfare committee, said following a meeting today.

City firemen battled a large bush and grass fire in the grounds of the Protestant Orphanage, Hillside Avenue and Cook Street, for an hour and 20 minutes on Thursday evening. Smoke and flames from the blaze could be seen for miles around.

E. G. Snowden, who is retiring from the post of city welfare administrator, was presented with a mantle radio this afternoon on behalf of the city employees and the City Council. Acting Mayor Edward Williams, in making the presentation, paid high tribute to Mr. Snowden's 16 years on the civic staff.

Garry Taylor, 10 years, son of Mr. and Mrs. C. J. Taylor, 1117 Yates Street, was injured painfully when a fish hook became imbedded in his back while he was fishing at Elk Lake Thursday afternoon. Saanich police reported. He was rushed to Jubilee Hospital by Sgt. Eric Elwell of the police force, where the hook was removed.

A total of \$265 was imposed in fines on intoxication charges against seven white men and four Indians in city police court today. Two of the white men each were fined \$50 after they pleaded guilty to having been previously convicted on similar charges. Five first offenders were fined \$25 each and the Indians each were fined \$10.

There will be no delivery by letter carrier or rural mail courier on Labor Day, according to announcement of C. H. Gardiner, postmaster, today. Post office wickets will be open from 8 to 10 in the morning and the post office lobby will be open until 6 in the evening. Evening street letter box collections only will be made. Mails due to be dispatched will be dispatched as usual.

A presentation will be made to H. Neville Wright, deputy minister of finance—who will retire shortly after 31st year's service, by Premier John Hart at 5 this afternoon in Finance Minister Herbert Anscomb's office. A banker holding a certificate of the Bankers' Institute, London, Mr. Wright entered the provincial government service in 1912 and was appointed deputy finance minister in 1933.

Paving operations by the city engineering department, have necessitated further re-routing of the B.C. Electric Railway Company's Fairfield buses. Until further notice, buses will be routed from Dallas Road along Linden Avenue to Faithful Street, to Cambridge Street, to May Street, along May Street to Cook Street, to Oxford Street, to Chester Street, and along Chester Street to Oscar Street, both to and from the city.

Don Alvarado Ricardo was remanded until Friday next at the opening of his preliminary hearing in city police court today on a charge of being armed with an offensive weapon he assaulted William Wakeham with intent to rob him early in the morning of July 24 last. Constable Donald Morton testified he and Constable Raymond Maitland arrested the accused in the Sports Club, Yates and Douglas Streets, after receiving a complaint from a Black and White taxi driver, William Wakeham. Ricardo was co-operative when asked to go to the police station, the officer testified.

Young Girl Falls 20 Feet In Sleep

Jocelyn Floyer, 16-years, suffered a broken ankle and minor back injuries when she fell 20 feet to a cement sidewalk from a second-story window of her parents' suite in the Langley Apartments, 219 Langley Street, at 12.15 this morning. Her condition was reported at Jubilee Hospital at noon today to be "quite good."

Constables Stanley Holmes and B. Hannay of the city police who took the injured girl to hospital, reported the fall occurred apparently while she was sleeping.

Overnight Entries For Hastings Park

VANCOUVER (CP)—Hastings Park entries Saturday, Aug. 31:

Also eligible:
Bob Jack (Sundquist) 108
Shasta King (Bovine) 110
My Tom (No Boy) 118

Weather cloudy, track fast. First post, 3.30 p.m.

*Apprentice allowance claimed.

Birtelsen Freed On Radio Theft Charge

Conceded by Prosecutor Claude L. Harrison that there was insufficient evidence to warrant a commitment to higher court, a charge of stealing two radios and a battery from boats at Brentwood Bay against John Birtelsen was dismissed in Saanich police court Thursday afternoon.

Charged jointly with Birtelsen was Richard Jones, who was remanded until next week.

Detective Angus Munro of the city police testified he went with Birtelsen and Corporal Jack Hamilton of the Saanich police to an Indian Reserve where Birtelsen went into some bushes and uncovered the two radios and battery.

Conversation between the police officers and Birtelsen was ruled inadmissible because the youth had not been warned.

Birtelsen on remand in city police court is scheduled to appear next Tuesday on a charge of attempting to murder Constable Stanley Cornish of the city police in a shooting affray at Hillside Avenue and Shelbourne Street early in the morning of July 20.

At the present time the lots are zoned for residential purposes, but Mr. Harman contends in his letter that this particular lot is so irregular in shape that it would be unsuitable for residential purposes.

He also insisted that erection of a service station on this particular corner will improve traffic conditions by improving visibility on the corner.

J. B. Knowles, Sidney, has received word from Cornwall, England, that a North Devon cow, owned by Mrs. T. Tregenza, of Tregoweth, Mylor, has given birth to three heifers and one bull calf, to set a record of having seven calves in three calvings. The six-year-old cow bore twins just over a year ago and before that had a single calf.

Two Fined \$50 For Dangerous Driving

Two motorists each were fined \$50 and their drivers' licenses were suspended for three months when they pleaded guilty in city police court today on charges of dangerous driving, resulting from two recent accidents.

They were Wilfred G. Jagard and Arthur M. Watson. Jagard was the driver of a car involved in an accident on May Street on Thursday, and Watson's car was in collision with a parked car on Gorge Road Wednesday night.

'Butch' Jenkins In 'Boys' Ranch'

The dramatic story of how a Texas cattleman found a way into the hearts of wayward boys inspired the screen writer William Ludwig, with an idea for one of his most absorbing motion picture scripts. The story is now unfolded on the Dominion Theatre screen in "Boys' Ranch," featuring Jackie "Butch" Jenkins, James Craig and Skippi Homeier.

YORK THEATRE

Jiminy Cricket is one of the characters in "Pinocchio," Walt Disney's full-length production in Technicolor now at the York.

PLAZA THEATRE

"Whistle Stop," starring George Raft, is currently showing at the Plaza Theatre. Ava Gardner is co-starred with Raft.

RIO THEATRE

Four songs are included in Monogram's exciting outdoor hit, "The Gentleman From Texas," now at the Rio with Johnny Mack Brown.
